AUTHOR Gaylord, Thomas; Brown, Steve W.  
TITLE Fact Book 1994.  
INSTITUTION Alaska Univ., Fairbanks.  
PUB DATE Jul 94  
NOTE 240p.  
PUB TYPE Reference Materials - General (130) -- Reports -  
Descriptive (141) -- Statistical Data (110)

EDRS PRICE MF01/PC10 Plus Postage.  
DESCRIPTORS Administrators; College Faculty; College Students;  
Educational Facilities; Educational Finance;  
Educational History; Enrollment; Evaluation; Higher  
Education; \*Institutional Characteristics;  
Institutional Mission; Public Service; Research;  
\*State Universities; Statistical Data; Student  
Characteristics  
IDENTIFIERS \*University of Alaska Fairbanks

## ABSTRACT

This reference volume presents detailed information on the University of Alaska Fairbanks covering history, academics and assessment, students, faculty and staff, budget and finances, research and public service, and facilities. Section 1, "Historical and General Information," covers establishment, accreditation, fight song, governing structures, associations, organization, programs, international agreements, and foundations. Section 2, "Academic and Assessment Information," includes information on program inventory, class size, student faculty ratios, freshmen test scores, degrees, and alumni information. Section 3, "Student Information" reports on applications and admissions, new and returning students, credit headcount, majors, demographics, and foreign students. Section 4, "Faculty and Staff Information", describes characteristics and demographics, tenure status, service years, and salary. Section 5, "Budget & Financial Information," covers appropriations history, revenue, expenditures, gifts, financial aid to students, tuition grants, graduate enrollment and assistantship support, appropriations for operating expenses, and price indexes. Section 6, "Research and Public Service Information," includes information on research expenditures, proposals, peer institution information, library statistics, computing facilities and use, cooperative extension statistics, museum statistics, and radio and television information. The last section, "Facilities Information," presents information on building inventory, space by room use, residential occupancy, hourly classroom enrollments, and leased space. Illustrated with very extensive tables and figures. Includes a glossary. (JB)

## UAF ADMINISTRATION

All prefixes are 474 unless otherwise noted.

### Executive Administration

<b>Chancellor</b>	
Joan Wadlow, 3rd fl Signers' Hall .....	7-12
<b>Provost</b>	
Jack Keating, 3rd fl Signers' Hall .....	7096
<b>Vice Chancellor for Administrative Services</b>	
Michael Rice, 206 Administrative Service Center .....	7340
<b>Affirmative Action Equal Opportunity</b>	
Dorothy Jones, Assistant to Chancellor, 3rd fl Signers' .....	6600
<b>Student Services</b>	
Carla Kirts, Dean, 5th fl Gruening .....	7317
<b>University Relations and Institutional Advancement</b>	
Karen Cedzo, Assoc VC, 220 Signers' Hall .....	7587

### Academic Administration

<b>College of Liberal Arts</b>	
Gorden Hedahl, Dean, 405 Gruening .....	7231
<b>College of Nature Sciences</b>	
Paul Reichardt, Dean, 465 Duckering .....	7941
<b>College of Rural Alaska</b>	
Ralph Gabrieli, Executive Dean, 708 Gruening .....	7106
<b>School of Agriculture and Land Resources Management</b>	
James Drew, Dean, 309 O'Neill .....	7083
<b>School of Engineering</b>	
Frank Williams, Dean, 248 Duckering .....	7330
<b>School of Fisheries and Ocean Sciences</b>	
Vera Alexander, Dean, 217 O'Neill .....	7531
<b>School of Management</b>	
David Porter, Dean, 101 Bunnell .....	7461
<b>School of Mineral Engineering</b>	
Robert Trent, Dean, 437A Duckering .....	7366
<b>Cooperative Extension Service</b>	
Hollis Hall, Director, 172 Arctic Health Research Bldg .....	7246
<b>Geophysical Institute</b>	
Syun-Ichi Akasofu, Director, 601 Elvey .....	7282
<b>Institute of Arctic Biology</b>	
Robert White, Director, 311 Irving .....	7648
<b>Office of Arctic Research</b>	
Ted DeLaca, Director, 3rd fl Signers' Hall .....	5991
<b>Planning, Computing, and Information Systems</b>	
Thomas Gaylord, Assoc VC, 201 Eielson Building .....	6638
<b>Rasmuson Library</b>	
Sharon West, Interim Director, 411 Library .....	7224

### Governance Officers

<b>ASUAF (Associated Students of the UAF)</b>	
Joe Hayes, President, Wood Center .....	7355
<b>Faculty Senate</b>	
Colin Reed, President, 312 Signers' Hall .....	7964
<b>Graduate Council</b>	
Larry Duffy, Professor, 210 AHRB .....	7525
<b>Staff Council</b>	
Paula Long, President, 312 Signers' Hall .....	7056

## UA BOARD OF REGENTS

<b>Sharon D. Gagnon, President (1991-1999)</b>	
6721 Roundtree Dr., Anchorage, AK 99516 (AFSDG1) .....	346-2592
<b>Virginia Breeze, Vice President (1989-1997)</b>	
520 Ocean Drive, Anchorage, AK 99515 (AYVWB) ...	345-3304
<b>Susan Stitham, Secretary (1987-1995)</b>	
Box 80913, Fairbanks, AK 99708 (FYSAS) .....	456-7794
<b>Mark Helmericks, Treasurer (1987-1995)</b>	
c/o C.E.S., Inc., Box 12, Prudhoe Bay, AK 99734 (AYMHH) .....	659-3198
<b>Mary Jane Fate (1993-2001)</b>	
PO Box 71111, Fairbanks, AK 99707 .....	457-6860
<b>Eric Forster (1989-1997)</b>	
Box 34383, Juneau, AK 99803 (JYEF) .....	789-5237
<b>Joseph R. Henri (1991-1999)</b>

## Preface and Acknowledgments

The 1994 edition of the *Fact Book* represents a continuing commitment to provide a reliable source of information about the University of Alaska Fairbanks. The *Fact Book* can be used as a convenient reference for answering some of the most frequently asked questions about our institution. By examining these historical and current data, we can better anticipate and plan for the future, promote enhancement of academic programs and facilities, and provide service to the citizens of our state.

This year saw us begin using the new UAF Information Warehouse in compiling several statistical tables as well as the second release of the *Electronic Fact Book*, thus making better quality information more accessible to a wider audience. Minor changes and additions have occurred in some tables due to information requested this past year for the UAF budget planning effort, implementing the strategic plan, and campus research initiatives. Taken together, these additions and process improvements will make the information in the *Fact Book* even more relevant in the upcoming year.

Our sincere appreciation is extended to the many individuals throughout the UAF community and the State who contributed to the production of this *Fact Book*. We are confident that the faculty, staff, students, alumni, and friends of the University will continue to find this publication a convenient, authoritative, and valuable reference of general and statistical information about UAF.

**Thomas Gaylord**  
Associate Vice Chancellor

## A Basis in Law

The University of Alaska is a constitutionally established state university. The pertinent sections of the Alaska Constitution are cited here.

### ARTICLE VII

#### HEALTH, EDUCATION AND WELFARE

##### Section 2

The University of Alaska is hereby established as the state university and constituted a body corporate. It shall have title to all real and personal property now or hereafter set aside for or conveyed to it. Its property shall be administered and disposed of according to law.

##### Section 3

The University of Alaska shall be governed by the Board of Regents. The regents shall be appointed by the governor, subject to confirmation by a majority of the members of the Legislature in joint session. The board shall, in accordance with law, formulate policy and appoint the president of the university. He shall be the executive officer of the board.

## Institutional Mission

The University of Alaska Fairbanks was established in 1917 as the Alaska Agricultural College and School of Mines. Today, as a comprehensive land-, sea-, and space-grant university, the multi-campus University of Alaska Fairbanks exists as a vital state resource to teach, to inquire and to serve.

The University of Alaska Fairbanks offers instructional programs covering a broad postsecondary spectrum and is the major research center for Alaska. The university is committed to providing a free and open forum where ideas and issues may be professionally pursued and frankly debated in an environment of mutual respect and intellectual integrity. It seeks to provide an intellectually stimulating learning process which is culturally sensitive and empowering to its students. The university is committed to assuring that its graduates receive a balanced education in the arts, humanities, natural and social sciences through which creativity is fostered and historical and philosophic perspectives are gained. As a result, the state benefits from an educated citizenry capable of the independent pursuit of further learning, of contributing to the economic well being of the state and nation and of participating in and contributing to global society. The university seeks a culturally diverse environment that values and promotes equal treatment of sexes, races, cultural and ethnic groups throughout its academic programs, student body, faculty and staff. The University of Alaska Fairbanks as a residential institution of higher education serves students from all of Alaska as well as from other states and nations. It is particularly committed to enhancing educational opportunities for Alaska's rural and native

## **Institutional Mission (continued)**

populations. Through its branch campuses in Bethel, Kotzebue and Nome and its rural education centers, the University is responsive to local and regional needs, including open educational access to its programs. Special strengths exist in the use of educational technology which provide for the distance delivery of selected programs to many areas of the state. In seeking to serve a broad array of students, admission to several associate degree and certificate programs is open to all. Admission requirements to all baccalaureate and graduate programs as well as some Associate of Applied Science degree programs vary depending on the specific field of study.

The University of Alaska Fairbanks offers developmental programs and certificate, associate, baccalaureate and graduate/professional programs in the arts, sciences, career fields and professions. It is a center for graduate education and is Alaska's only doctoral granting institution. It possesses unique strengths in the physical and natural sciences and offers a broad array of engineering programs with a particular emphasis on the stresses of northern environments. UAF is a major center for the study of natural resources including minerals, forestry, wildlife, geology, agriculture, fisheries and ocean sciences and their associated economics. It has been recognized for its work in multi-cultural understanding, rural health problems, and cross-cultural interaction in the human service professions.

As a major center for research and scholarship the University of Alaska Fairbanks is committed to the mutual enhancement of teaching, research and creative activity, and public service. Scholarship which produces new knowledge instills a vigor into teaching which in turn stimulates inquiry and the quest for further answers to the unknown. The university seeks to use its particular location in the north as a natural laboratory for the study of questions and issues, whose solutions are not only applicable to Alaskan problems but to a broader understanding of our global community. As part of a network of state research universities, this institution has an active program of basic and applied research resulting in a well earned national and international reputation. Specific recognition has been achieved in space physics, marine science, and high latitude biology, environmental sciences, engineering and geophysics. The university has recognized programs in definition, exploration, development and management of Alaska's renewable and nonrenewable resources. It is the state's center for study of Alaska Native cultures and languages.

Through its Cooperative Extension Service and Marine Advisory Program, research results are interpreted and transferred to people of the state. Its continuing education programs extend the expertise of the university to adult learners needing alternative learning opportunities. The university's library and museum provide the state's major information resources and cultural collections with a particular strength in Alaska and polar regions. Finally, through its programs in fine and performing arts, the university provides cultural enrichment to the state's interior and rural populations. In accomplishing this mission, the University seeks the advice and guidance of Alaska's residents and friends.

Board of Regents Policy 10.02.01, adopted 02-25-88

\* Since the mission statement was adopted, the University of Alaska Fairbanks has added the Bristol Bay and Interior Campus sites. UAF was granted space grant status in 1991.

## Historical Highlights

1915

The University was originally established by the United States Congress as a land-grant college, called the Alaska Agricultural College and School of Mines.

The location was selected by one of the early founders of Fairbanks, the Honorable James Wickersham, territorial delegate to the U.S. Congress from Alaska. At that time, Anchorage was only a young tent city, and Juneau, being a center of population and government, had little interest in an agricultural college. The cornerstone laying ceremony was held on the Fourth of July.

1917

Governor Strong signed the bill on May 3 accepting the federal land grant of 2,250 acres to create the Alaska Agricultural College and School of Mines as a land-grant college committed to public service, teaching and research. A separate corporation was established which provides for a board of trustees.

1921 - President Bunnell

Dr. Charles E. Bunnell became the founding president. He was a judge of the U.S. District Court in Fairbanks for the preceding seven years. Bunnell was appointed by the Board of Trustees (which became the Board of Regents in 1935). His long-time political rival, Wickersham, tried to have the appointment rescinded.

1922

The "Farthest North College," as it was commonly referred to in its early years, opened on September 18 with six faculty and six students, in addition to President Bunnell and his secretary. The total student body rose to 12 after late enrollments.

1923

The first annual Commencement Exercises were held with one graduate, Jack Sexton Shanley, who received his Bachelor of Science degree in Agriculture. President Warren Harding also visited the campus that year.

1924

The Bureau of Mines station was transferred to the College. Other developments included the graduation of the first woman, Margaret E. Thomas (later Mrs. Olaus Murie) in business administration.

1926

The U.S. Bureau of Biology Survey Station was established.

1927

The Business Administration Club was organized. The first Bunnell-Geist Expedition to St. Lawrence Island occurred.

1929

The Civil Engineering Society was formed. The College received an appropriation from the Rockefeller Foundation in 1929 to study the aurora borealis.

1931

The Fairbanks Agricultural Experiment Station, which had been established in 1906, was transferred to the College by an act of Congress. The Matanuska Agricultural Experiment Station was transferred to the College the following year. Signers' Hall was built to be the campus gymnasium. Later it would serve as the library, then the museum. Currently, Signers' Hall houses several UAF administrative offices.

## Historical Highlights (continued)

1935

The Territorial Legislature approved a name change on July 1, and the Alaska Agricultural College and School of Mines became the University of Alaska. Enrollment was up to 150 with 18 faculty members.

1936

Dr. and Mrs. Froelich Rainey built the Rainey/Skarland cabin.

World War II: Wartime enrollment was 67 in 1943-44, but increased to 373 in 1946-47.

1946

The Geophysical Institute (GI) was created by an act of Congress.

1947

The College Magnetic and Seismological Observatory was built in 1947, and the first summer session was held.

1949 - President Moore

Dr. Terris Moore served as the second president of the University from July 1949 to October 30, 1953. Arthur Nagozruk Jr., of Barrow, was the first Alaskan Eskimo to graduate from the UAF. The Chapman Building (the original GI), Nerland Hall and the Brooks Building were completed. Eielson Building construction, started in 1934, was completed in 1950. Enrollment reached 409 in 1953, and courses were offered on several military bases in the state.

1953 - President Patty

Dr. Ernest N. Patty, a faculty member in 1922, and Dean of the College from 1925-35, returned as the University's third president in 1953. Construction continued with the expansion of the physical plant, and completion of three more dormitories and two married-student apartment buildings. The Bunnell Building was constructed, and Constitution Hall was completed in time to accommodate the Alaska Constitutional Convention in November 1955. Enrollment rose to 978, and community colleges were established in Anchorage, Ketchikan, and Juneau. In 1956, with Bill Egan presiding, Alaska's constitution was signed in Signers' Hall. The first Ph.D., in space physics, was conferred at the annual Commencement Exercises in 1957.

1960 - President Wood

Dr. William R. Wood became the fourth president in 1960. The next 13 years saw greater funding for university operations and physical plant development, along with a broadening of academic, research, and public service programs. In 1964, three regions were established—Northern, Southeastern and Southcentral—each with a provost to coordinate and direct activities. Community colleges were organized at Palmer, Sitka, Kodiak, Bethel and the Kenai Peninsula. Regional centers were established at Anchorage and Juneau, augmenting community college programs with upper-division and graduate studies. The Fairbanks campus grew to include a new residence hall complex, gymnasium, classroom buildings (Charles E. Bunnell Building in 1960; William E. Duckering Building, 1964; Ernest Gruening Building, 1972), a heating and power plant, a library/fine arts complex (1969), and campus activity center (Ernest N. Patty Center, 1963), and further expansion of research

## Historical Highlights (continued)

### 1960 (continued)

facilities on the West Ridge. The Alaska Water Laboratory and the new Geophysical Institute were among new facilities on the West Ridge. The Institute of Marine Science was established by the Alaska Legislature in 1960, and the Mineral Industry Research Laboratory and the Institute of Arctic Biology in 1963.

### 1969

Poker Flat Research Range was established as the largest land-based and only high-latitude university-owned sounding rocket range in the world.

### 1970

The university was named a sea-grant institution.

### 1971

The Alaska Native Land Claims Settlement Act passed. With the development of village and regional Native corporations, the need for greater educational opportunities in rural areas of the state developed. In response to this, the university administration and Native leaders conferred to determine the best way to meet critical needs.

### 1972

Student enrollment in Fairbanks reached 3,158 in the Fall '72. Overall enrollment statewide rose from 1,630 in 1960 to 10,325 in 1972, increasing at an average annual rate of close to 17 percent.

### 1973 - President Hiatt

Dr. Robert W. Hiatt succeeded President Wood as UA's fifth President. President Hiatt instituted a sweeping reorganization of the university, allowing considerable development of higher education programs in rural Alaska. The position of vice president for rural educational affairs was created. The regional system was abandoned to better emphasize development of the major urban centers in Fairbanks, Anchorage and Juneau. A Chancellor was appointed at each campus with responsibility for all research and academic programs. The positions of vice president for research and vice president for academic and faculty affairs were abolished, and the six existing colleges and seven research institutes at UAF were merged into two colleges - Environmental Sciences, and Arts and Sciences and the Division of Professional Schools. Statewide administration and the Office of the President remained in Fairbanks.

### 1974

Tanana Valley Community College was established in Fairbanks. A learning center was opened in Barrow in 1974, followed by the Northwest Community College at Nome in 1975.

### 1975

The University of Alaska Foundation was established to encourage private giving to the University.

### 1976 - UAF Chancellor Cutler

Dr. Howard Cutler became the first Chancellor of UAF in 1976.

### 1977

Charles O. Ferguson, Neil D. Humphrey, and Foster F. Diebold served short terms as UA's sixth, seventh and eighth presidents between 1977 and 1979.

## Historical Highlights (continued)

### 1977 (continued)

Regents approved a reorganization plan proposed by UA President Humphrey under which education services were to be provided by four basic units -- the University of Alaska Fairbanks (UAF), University of Alaska Anchorage (UAA), University of Alaska Juneau (UAS), and the Division of Community Colleges, Rural Education and Extension. Program expansion included petroleum engineering, computer technology and resource management.

### 1980 - President Barton

Regents announced the appointment of Dr. Jay Barton as the ninth president. The Museum was relocated to the Otto Geist Building on West Ridge.

### 1981 - UAF Chancellor O'Rourke

Dr. Patrick J. O'Rourke, previously chancellor of UA's Community Colleges, Rural Education and Extension division, became the second Chancellor of UAF at age 40. Enrollment topped 5,000. Program expansion included a Northern Studies program and doctoral degrees in mathematics, fisheries and biochemistry.

### 1982

The College of Human and Rural Development was created. Constitution Park was completed to honor the Alaska delegates that drafted and signed the Alaska State Constitution. The park is located between Constitution Hall, the Fine Arts Complex and the Gruening Building.

### 1983

The Honors Program began accepting students.

### 1984 - President O'Dowd

Dr. Donald D. O'Dowd, previously vice chancellor of the SUNY System, became the tenth President of the UA System. The Student Apartment Complex was completed and the International Programs Office was established.

### Restructuring

In 1987 President Donald O'Dowd and the Board of Regents restructured the University of Alaska System, streamlining administration and giving the state's four-year institutions in Anchorage, Juneau and Fairbanks responsibility for former community college missions. UAF's responsibilities included the campuses in Bethel, Nome, Kotzebue, Bristol Bay, downtown Fairbanks, and the Interior.

### 1987 - UAS Chancellor Lind and UAA Chancellor Looney

Dr. Marshall Lind, previously UAF professor of education, became the first chancellor of the newly restructured UAS. Dr. Marvin Looney, previously chancellor of UA's Community Colleges, Rural Education and Extension division, became the first chancellor of the newly restructured UAA.

### 1988 - UAA Chancellor Behrend

Dr. Donald Behrend, previously UA System Provost, became the second chancellor of the restructured UAA. The importance of Alaska as a site for receiving, processing and archiving data from earth-orbiting environmental satellites was demonstrated when the Synthetic Aperture Radar (SAR) Facility was installed on top of the GI. UAF's reputation grew internationally as the Polar Ice Coring Office (PICO) moved to Fairbanks.

## Historical Highlights (continued)

### 1989

After 6 years as UA's President and guiding the university through the 1987 restructuring, Dr. O'Dowd announced his decision to retire in June 1990.

### 1990 - President Komisar

Known for its high-latitude social and scientific studies, UAF received more NSF funding in Arctic studies (on a per-researcher basis) than any other university in the United States. Dr. Jerome Komisar, previously vice chancellor of the SUNY System, became the eleventh President of the UA System. After 10 years as UAF's chancellor and 22 years of total UA service, Dr. O'Rourke announced his decision to retire in June 1991.

### 1991 - UAF Chancellor Wadlow

Dr. Joan K. Wadlow, previously Provost at the University of Oklahoma, became the third chancellor of UAF, and the first woman to be named Chancellor anywhere in the UA system. UAF was named the best of western regional institutions, based on costs and academic quality, by *U.S. News and World Report*. UAF was designated a Space-Grant Institution by the National Aeronautics and Space Administration (NASA) because of its nationally competitive aerospace programs.

### 1992

UAF celebrated the 75th Anniversary of its founding. The Usibelli Coal Mine gave UAF its first major endowment to support teaching, research and public service awards for faculty.

### 1993

UAF's Arctic Region Supercomputing Center became operational with the installation of a Cray Y-MP M98 supercomputer. After 5 years as UAA's chancellor and 8 years of total UA service, Dr. Behrend announced his decision to retire in June 1994.

### 1994 - UAA Chancellor E. Lee Gorsuch

Lee Gorsuch, previously the Dean of School of Public Affairs and director of UAA's Institute of Social and Economic Research, becomes the third Chancellor of the restructured UAA.

## Accreditations

Commission on Colleges of the Northwest Association of Schools and Colleges

### SPECIALIZED ACCREDITATIONS

- Accreditation Board for Engineering and Technology
- Accrediting Council on Education in Journalism and Mass Communication
- Alaska State Board of Education through National Association of State Directors of Teacher Education and Certification
- American Assembly of Collegiate Schools of Business
- American Association of Museums
- American Chemical Society
- Computing Sciences Accreditation Board
- Council on Social Work Education
- National Association of Schools of Music
- National Council for Accreditation of Teacher Education

## Board of Regents

The Board of Regents is the governing body responsible for university policy and management through the president. Regents are appointed by the governor for eight-year terms, subject to legislative confirmation. A student regent is appointed for two years from candidates from each campus. Terms of office shown in parentheses.

Sharon D. Gagnon, President (1991-1999)  
Virginia W. Breeze, Vice President (1989-1997)  
Susan A. Stitham, Secretary (1987-1995)  
Mark H. Helmericks, Treasurer (1987-1995)  
Mary Jane Fate (1993-2001)  
Eric Ferrer (1989-1997)  
Joseph R. Henri (1991-1999)  
Michael P. Kelly (1991-1999)  
R. Danforth Ogg (1993-2001)  
Scott A. Otterbacher (1993-1995)  
Lew M. Williams Jr. (1991-1999)

## UAF Standing Committees and Advisory Groups

### Arctic Region Supercomputing Center Committee

Channon Price, Assistant Professor, Physics Department, Chair  
Bill Brody, Professor, Art Department  
Gwang-Son Choe, Research Associate, Geophysical Institute  
Ted DeLaca, Director, Office of Arctic Research  
Richard Dowling, Senior Vice President, GCI  
BPX British Petroleum  
Thomas Gaylord, Associate Vice Chancellor, PCIS  
Doug Hammer, Associate Vice Chancellor for Research & Grad Studies, UAA  
Stan Smith, Supervisor of Engineering, ARCO, Alaska  
Jonah Lee, Professor, Mechanical Engineering  
David Musgrave, Assistant Professor, Institute Marine Science  
Jim Gore, Vice President, ALASCOM  
Daniel Swift, Professor, Geophysical Institute  
Mitchell Roth, Associate Professor, Mathematical Sciences  
Scott Smiley, Assistant Professor, Institute of Marine Science  
Gunter Weller, Director, Center for Global Change  
Ex-Officio  
Tom Healy, Director & PI, ARSC  
Jack Keating, Provost  
Michael Rice, VC Administrative Services

### Art in Public Places Committee

Karen L. Cedzo, URJA, Chair  
Bill Brody, Art Department  
Vin Haneman, Community representative  
Eric Jozwiak, Student Services  
Jean Mackin, Community representative  
Marionette Stock, student  
William Tuttle, Physical Plant

## UAF Standing Committees and Advisory Groups (continued)

### Board of Visitors

Jeff Cook, Director, Northern Community Relations, ARCO Alaska Inc.  
 Tim Fargo, President & CEO, MicroAge  
 Dr. Hugh B. Fate, Fairbanks, AK  
 Mary Hughes, Anchorage, AK  
 Grace Berg Schaible, of Counsel, Cook, Schuhmann & Groseclose  
 Therese G. Sharp, Fairbanks  
 Morris Thompson, Fairbanks  
 Joe Usibelli, Chairman of the Board, Usibelli Coal Mine, Inc.  
 Chip Wagoner, Juneau, AK  
 Sally Wien, Fairbanks, AK  
 A.L. "Buki" Wright, Mapco Petroleum, North Pole, AK  
 Phil Younker, Younker & Associates, Ltd., Fairbanks, AK  
 Ex-Officio  
 Dr. Joan Wadlow, Chancellor

### Budget Council

Jack Keating, Provost, Chair  
 Thomas Gaylord, Facilitator, Assoc Vice Chancellor Planning & CIS  
 Syun Akasofu, Director, Geophysical Institute  
 Tim Bauer, Staff Council  
 Joe Hayes, ASUAF  
 Gordon Hedahl, College of Liberal Arts  
 Clara Johnson, Interior Campus  
 John Phillips, Physical Plant  
 Paul Reichardt, College of Natural Sciences  
 Scott Smiley, Faculty Senate  
 Joan K. Wadlow, Chancellor  
 John Whitehead, Strategic Planning Leadership  
 Sue Wilken, Student Services  
 Frank Williams, School of Engineering  
 Ex-officio  
 Michael Rice, Vice Chancellor for Administrative Services  
 Betty Hoch, Budget and Cost Records

### Chancellor's Advisory Committee on Native Education

Joan K. Wadlow, Chancellor, Convenor  
 Poldine Carlo, Community Member  
 Darlene Demientieff, Alaska Native Social Workers Association  
 Jo Ann Ducharme, Rural Student Services  
 Mike Gho, Native Student Organization  
 Carol Lee Gho, FNSB Alaska Native Education  
 Joe Hayes, ASUAF, ex-officio  
 Theresa John, Alaska Native Studies  
 Clara Johnson, Interior Campus  
 Kathy Mayo, Doyon Foundation  
 Reve Shircel, Tanana Chiefs Conference  
 James Nageak, Alaska Native Language Center  
 Paul Ongtooguk, School of Education  
 Thelma Saunders, Alaska Native Education Student Association  
 Ann Shane, American Indian in Engineering and Sciences  
 Ex-officio  
 Joan Wadlow, Chancellor UAF

Lyrics by Mary J. Walker & Carl M. Franklin Music by Carl M. Franklin

Though far we wander from thy door,  
following paths of golden lore,  
With love and pride we think of thee,  
Rev'ling in treasured memories,  
'Neath sparkling stars and northern lights,  
Hills crest halls gleam stately white,  
Inspiring love and faith to glowing flame:  
Our Alma Mater we revere thy name.

All hail Alaska, sing her praise:  
Our home of carefree college days,  
A pioneer we see thee stand,  
Champion of far north frontier land,  
Thy sons and daughters e'er we'll be,  
Forever loyal and true to thee,  
Imbued with love we sing glad acclaim,  
Our Alma Mater we praise thy name.

FIGHT SONG Music by Carl M. Franklin

Fight for Alaska win the victory!  
Fight for the Blue and Gold.  
Hail to our banner, as it waves so free,  
Over the victor's fold.  
Cheer for the Polar Bears, mighty men are they,  
Onward to honor and fame!  
Fight on to win for our Alma Mater, Fight for Alaska's name.

- 1921 The board of trustees selected Dr. Charles E. Bunnell, judge of the U.S. District Court at Fairbanks, as the college's first president. Bunnell assumed the position on December 7.
- 1949 Dr. Terris Moore, a former president and trustee of the Boston Museum of Science, assumed the presidency on July 1.
- 1953 Moore was succeeded by Dr. Ernest Patty, a member of the original faculty in 1922 and dean from 1925-35.
- 1960 Dr. William R. Wood, former academic vice president and acting president of the University of Nevada, succeeded Patty as president of the University, one year after Alaska became a state.
- 1973 Dr. Robert W. Hiatt succeeded Wood as the University's fifth president. Hiatt reorganized the University in 1975, ending the regional system, and appointed chancellors to head the Fairbanks and Anchorage units.
- 1976 Dr. Howard A. Cutler assumed his duties as the first chancellor of the University of Alaska Fairbanks.

## Presidents/ Chancellors of the Institution (continued)

- 1981 Dr. Patrick J. O'Rourke succeeded Cutler as UAF's second chancellor.
- 1991 Dr. Joan K. Wadlow became the third chancellor of UAF and first woman chancellor in the UA System.

## UAF Alumni Association

The UAF Alumni Association provides alumni with opportunities for involvement and interaction with the institution and with each other in social, cultural and/or educational areas, as well as providing support to current students. The association is managed by a board of directors, which is elected by the active membership. Each position on the twelve member board represents a geographic area. The association promotes the general welfare of UAF, through the efforts of UAF graduates and former students.

### Board of Directors

Cathy Persinger .....	'79 - Executive Director
Chris Birch .....	'72 - Seat 4, Southcentral
Shari Daugherty .....	'78 - Seat 10, Southcentral
Dale Fox .....	'77 - Seat 6, At Large
Jean K. Anderson Graves .....	'54 - Seat 1, At Large
Jyotsna Heckman .....	'79 - Seat 5, Interior
Cynthia Klepaski .....	'80 - Seat 3, Interior
Patrick Osborne .....	'76 - Seat 2, Southcentral, Vice President
Harris Shelton .....	'92 - Seat 9, Interior
Chip Wagoner .....	'74 - Seat 8, At Large, President
Mike Wellings .....	'73 - Seat 11, Outside
Walt Wilcox .....	'73 - Seat 7, Southeast

## UAF Honorary Degrees Conferred

1932	Steese, Gen. James Gordon (Deceased) .....	D. Science
1935	Wickersham, Hon. James (Deceased) .....	LL.D.
1940	Anderson, Jacob P. (Deceased) .....	D. Science
1946	Brandt, Herbert (Deceased) .....	D. Science
1949	Duckering, William Elmhirst (Deceased) .....	D. English
1949	Jackson, Henry M. ....	LL.D.
1949	Seaton, Stuart Lyman .....	D. Science
1950	Dimond, Anthony J. (Deceased) .....	LL. D.
1950	Larsen, Helge .....	D. Science
1951	Twining, Gen. Nathan Farragut, US Chief of Staff .....	LL. D.
1951	Warren, Hon. Earl - Chief Justice .....	D. P. Science
1951	Washburn, Henry Bradford, Jr. ....	Ph. D.
1952	Nerland, Andrew (Deceased) .....	LL.D.
1952	Reed, John C., Executive Director, Arctic .....	D. Science
1953	Patty, Ernest N. (Deceased) .....	D. English
1953	Tuvc, Merle A., Director, Dept. of Terrestrial .....	D. Science
1954	Balchen, Col. Bernt, The Air Attache, American .....	D. Science
1954	Schmitz, Henry, President Emeritus, U. of WA .....	D. Science
1955	Knowland, William Fife .....	LL. D.

UAF Honorary  
Degrees  
Conferred  
(continued)

1955	Wood, Col. Walter A. ....	D. Science
1955	Wilkins, Sir Walter A. ....	D. Science
1955	Gasser, George, (Deceased) ....	D. Science
1955	Gruening, Ernest, U.S. Senator (Deceased) ....	LL. D.
1956	Green, Hon. Edith S., Representative from OR ....	LL. D.
1956	Loussac, Zachariah J. (Deceased) ....	LL. D.
1957	Grosvenor, Elsie May Bell (Mrs. Gilbert) ....	LL. D.
1957	Grosvenor, Gilbert, National Geog. Society ....	LL. D.
1957	Geist, Otto William (Deceased) ....	D. Science
1957	MacKenzie, Norman A.M., Pres. U. of B.C. ....	LL. D.
1958	Chapman, Sydney ....	D. Science
1958	Seaton, Fred A. ....	LL. D.
1958	Walsh, Michael J. (Deceased) ....	LL. D.
1958	Drake, C. Marie (Deceased) ....	D. Litt.
1958	Fry, Franklin C. ....	D. Litt.
1959	Fohn-Hansen, Lydia ....	D. Humanities
1959	Irwin, Don ....	D. Humanities
1959	Lehleiner, George ....	LL. D.
1959	O'Brien, Leo W. ....	LL. D.
1959	Teller, Edward ....	D. Science
1960	Bartlett, Senator E.L. (Deceased) ....	LL. D.
1960	FitzGerald, Gerald ....	D. Science
1961	Bunche, Ralph J. ....	LL. D.
1961	Field, William B. Osgood ....	D. Science
1961	Keller, William J. ....	LL. D.
1961	Snodgrass, Milton D. (Deceased) ....	D. Science
1962	Armstrong, Robert Rolland ....	D. Humanities
1962	Aspinall, Wayne N. ....	LL. D.
1962	Thomas, Lowell J., Sr. ....	LL. D.
1962	Wien, Noel (Deceased) ....	D. Science
1963	Doolittle, James H. ....	D. Science
1963	Reeve, Robert ....	D. Science
1963	Shaw, Robert ....	D. Fine Arts
1963	Tilly, Lola Crencans ....	D. Humanities
1964	Albrecht, C. Earl ....	D. Science
1964	Sasayama, Tadao ....	LL. D.
1964	Terry, Luther L. ....	LL. D.
1965	Anderson, Clinton P. ....	LL. D.
1965	Brewer, Max C. ....	D. Science
1966	Trippe, Juan ....	LL. D.

**Faculty National/  
International  
Appointments**

Dr. Vera Alexander: (SFOS) was one of 175 invited participants to help the Clinton Administration refine its science budget during the National Forum on Environment and Natural Resources Research and Development meeting in March 1994. She is also on the National Academy of Science/National Research Council Committee on Geophysical and Environmental Data and is one of two U.S. delegates to the North Pacific Marine Science Organization.

Marcia Cressell Argall: (RAHEC assistant director) serves on the steering committee for the University of Washington Rural/Underserved Opportunities Program.

Dr. Carl S. Benson: (professor emeritus, GI) a Fellow of the American Association for the Advancement of Science.

Karen L. Cedzo: (Associate VC for URIA) Chair of the Council on Univ Relations & Development of Nat'l Assoc of State Universities & Land Grant Colleges.

Dr. Thomas Gaylord: (Associate Vice Chancellor for PCIS) elected to the board of directors for Pacific Northwest Association for Institutional Research and Planning.

Dr. R. Dale Guthrie (IAB) received an Alexander Von Humbolt award from the German government.

Dr. Lew Haldorson (SFOS) is a member of the North Pacific Fisheries Management Council Gulf of Alaska Groundfish Planning Team.

Dr. David Hopkins: (CNS) received the Fryxell Award from the Society of American Archaeology (SAA) recognizing his contributions. This is the most prestigious national award given by the SAA and only the most distinguished senior scholars are considered. He has also received the Franklin L. Burr Award from the National Geographic Society.

Dr. Dan Jaffe (CNS and GI) serves as a member of the U.S. delegation to the Arctic Monitoring and Assessment Program, which was set up by a consortium of eight arctic countries to implement an international agreement to protect the arctic environment.

Daniel Johnson: (Rural Alaska Health Education Center (RAHEC) director) elected to the national AHEC Directors' Association Executive Committee.

Dr. Aldona Jonaitis (UA Museum) was elected president of the Native American Art Studios Association in November 1993.

Dr. Doug Kane (SOE) was elected to serve on the national Committee on Wetlands Characterization, which was formed at the request of the U.S. Congress.

## Faculty National/ International Appointments (continued)

Dr. John Kelly: (Director, PICO) named one of the administering directors of the first International Design for Extreme Environments Assembly (IDEEA One). The international assembly's goal is to form a permanent and expanding worldwide network to provide mechanisms for common problem solving in extreme environments, including space exploration.

Dr. Brina Kessel: (curator of ornithology, UA Museum) elected President of the American Ornithological Union.

Dr. Gary Laursen (IAB) was named a Tandy Technology Scholar for teaching excellence in math and computer sciences. He is the first recipient from Alaska.

Dr. Wanda Martin (Academic Advising Center) was appointed the Alaska representative for the Council for Adult and Experiential Learning in October 1993.

Dr. Terrence Quinn: (SFOS) serves on the National Academy of Science/National Research Council review team for fisheries management, and the Scientific and Statistical Committee of the North Pacific Fisheries Management Council.

Dr. Juan G. Roederer: (GI) appointed by President Reagan as chairman of the U.S. Arctic Research Commission in 1987.

Dr. Thomas C. Royer: (SFOS) since 1981, serves on the Nat'l Academy of Sciences Associateship Review Panel; received Editors Award for service to *Journal of Geophysical Research Oceans*; co-chairman, WOCE Hydrographic Implementation Panel; serves on the Ocean Studies Board and the Bering Sea Ecosystem Committee, Polar Research Board of the Nat'l Academy of Science/National Research Council; member UNOLS Advisory Council; chairman Arctic Research Vessel subcommittee, UNOLS Fleet Improvement Committee; member OCS Advisory Board Scientific Committee; member North Pacific Marine Science Organization.

Donald Scheaffer (Financial Aid) and James T. Mansfield (Admissions & Records): appointed as College Board Delegates by The College Board, a nonprofit educational association serving students, schools and colleges.

Dr. Alan Springer (SFOS) serves on the National Academy of Science/National Research Council Ocean Studies Board.

Dr. Knut Stamnes: (Professor of Physics) named one of five site scientists by the U.S. Department of Energy's Atmospheric Radiation Measurement (ARM) Program. He is responsible for the day-to-day scientific operations of the Program's measurement site to be located over 25,000 square miles on the North Slope of Alaska.

Peggy Shumaker: (English Department Head) elected President of the National Associated Writing Program.

Al Tyler (SFOS) sits on the North Pacific Fisheries Management Council Scientific and Statistical Committee

Dr. Gunter E. Weller: (GI) member of the Committee on Global Change Research, National Research Council; serves on the Council of International Glaciological Society; serves as chairman of the Working Group on Global Change, International Arctic Science Committee; serves as chairman of the IGPP Steering Committee, Scientific Committee on Antarctic Research.

## University of Alaska Foundation

The Foundation is legally separate and distinct from the University of Alaska and is governed by its own Board of Trustees. This twenty-six member board establishes the Foundation's investment policy for endowments, manages donated property, and oversees the distribution of the Foundation's assets to its sole beneficiary, the University of Alaska system. Total FY91 assets were \$19.3 million.

The membership of the Foundation consists of its College of Fellows which is organized into three branches and an unaffiliated group. Each branch operates to support the fund-raising efforts of its respective university. In addition, members of the Foundation's investment policy for endowments, manages donated property, and all branches of the College of Fellows assist the Trustees in fund-raising at the statewide level and act as advocates for the University in community and state issues.

## Changes from FY93:

- Provost John P. Keating hired from UW Vice Provost & Dean of Branch Campuses
- Dean of SME/MIRL Robert Trent hired from Keyes Oil Co and Envtrol Inc. President
- Dean of SOM David Porter hired from Cal State
- San Bernardino Dean of Business Sch of Ed Director Pamela Keating hired from UW College of Education Professor
- Athletics Director Kelly Higgins hired from Rocky Mountain Athletic Conference
- Ted DeLuca from VCA Research Project Coord to Dir of Arctic Research
- Joseph Kan from Professor of Physics to Dean of Graduate School
- Don Schell to Dir of Inst of Marine Science from Professor of Marine Science
- Dorothy Jones from Assoc Prof CAPS, DTC to Asst to the Chancellor for EEO
- V. Kamath to Acting Director of Petro Dev Lab from Assoc Prof of Petroleum Engineering
- Sharon West from Assoc Prof of Library Sci to Interim Director of Rasmussen Library
- Paul Reichardt from Interim Provost returned to Dean of CNS
- Jenica Rasmussen from Vice Chan of Acad Affairs to Professor of Sociology
- John Morack from Interim CNS Dean returned to Physics Dept Head
- Tom Royer from Fac Assoc for Research returned to Professor of IMS
- Scott Huang from Acting SME Dean/ MIRL returned to Mining/Geol Engr Dept Head
- Allen Glatthorn from School of Ed Director to Kingship Endowed Chair in Ed at E. Carolina Univ
- Charles Graham from Dir of Sponsored Progs to Dir of Sport Research at LSU-Baton Rouge
- Lynn Lashbrook from Director of Athletics to St. Louis-based Sports Management Group
- John Lehman from SOM Acting Dean to UACN Executive Director
- Paul McCarthy, Rasmussen Lib Director, retired
- O. D. Sharma, Petro Dev Lab Director, retired as Professor of Petro Engr Emeritus

## Principal Research Units At UAF

The UAF Special Mission states: "The University of Alaska Fairbanks is the State's center for organized activity in basic and applied research with particular emphasis on high latitude and Alaskan problems which have provided this University with a well-earned national and international reputation. Foci are directed toward marine science and high latitude studies in geophysics, biology, environmental sciences, and engineering disciplines". UAF also conducts "studies relative to the definition, exploration, and development of Alaska's natural resources, with a special emphasis on agriculture and minerals."

This mission statement, taken with UAF's actual research activities, define UAF as "The Arctic Institution for the United States" and "America's University of the North."

Within the areas of emphasis identified above, and in support of the overall academic program, UAF research institutes, centers and laboratories have been organized to facilitate "the institution's two main responsibilities in promoting research: to aid members of the faculty in developing and maintaining their research programs, and to provide a central point of contact for off-campus agencies turning to the institution for research assistance." (*NASC Accreditation Handbook*, p. 73).

Several programs and facilities are managed centrally to promote research at UAF. Funding initiatives include the Faculty Small Grants Program and the National Institutes of Health-funded Biomedical Research Grants Program. Other initiatives are funded on a limited and discretionary basis to assist in the development of critical areas.

### Agricultural and Forestry Experiment Station (AFES)

*Bonanza Creek Experimental Forest:* The Taiga LTER (Long-Term Ecological Research Program) site, located at Bonanza Creek, is part of a 19-site, National Science Foundation funded national network. It was established in 1987, four years after a major fire at Rosie Creek burned one-third of the experimental forest. At the Bonanza Creek site, UAF researchers, in cooperation with the Institute of Northern Forestry (U.S. Forest Service) and scientists from other universities, focus their studies on the processes that control forest development on flood plains and uplands after fire.

*Delta Research Site:* One hundred miles southeast of Fairbanks, UAF researchers study carbon cycling in the Delta Agricultural Project, to gain insight into the effects of global warming. In basic agronomic research, UAF scientists emphasize production techniques, and crop selection appropriate to high latitude lands in order to boost yield while protecting the soil and minimizing production costs.

*Fairbanks Research Center/Experiment Farm:* For more than three-quarters of a century, interior Alaskan farmers have benefited from basic agricultural and conservation studies conducted at the Fairbanks Experiment Farm. Today's researchers are investigating ways to increase yield while meeting Alaska's special environmental needs. Horticulture, small fruits, grain and swine, are some of the Center's major areas of study.

*Forest Soils Laboratory:* Research conducted by the Laboratory emphasizes the soil fertility controls of forest development in interior Alaska forests. Facilities are available to students and collaborating investigators for conducting soil, plant tissue and water analysis for all major physical and chemical properties of these materials.

## Principal Research Units At UAF (continued)

### Agricultural and Forestry Experiment Station (continued)

*Land Grant:* The School of Agriculture and Land Resources Management (SALRM) and AFES continue the Land Grant tradition. Research and public service activities emphasize applications and solutions to problems facing Alaskans and others in the circumpolar north.

*Palmer Research Center/Matanuska Farm:* Located in the Matanuska Valley—Alaska's traditional agricultural center—the Palmer Research center concentrates its research efforts on developing new production techniques for the area's agricultural industry. Major research efforts in dairy, vegetable, and beef production result in lower costs to Alaskan consumers and higher return for the state's producers. Studies are conducted at the Matanuska Farm and on privately owned local farms.

### Alaska Cooperative Fish and Wildlife Research Unit

This Unit is jointly sponsored by UAF, the Alaska Department of Fish and Game, the U.S. Fish and Wildlife Service, and the Wildlife Management Institute. Fisheries research emphasizes the ecology, alteration, and management of arctic and subarctic freshwater ecosystems as they relate to fisheries resources. Wildlife-related studies focus on ungulate habitat relationships, seabird and waterfowl ecology, wildlife population dynamics, and the impact of northern development on wild animals.

### Alaska Native Language Center (ANLC)

The Center was established in 1972 to document, study and cultivate the 20 native Indian, Aleut and Eskimo languages of Alaska. It houses an archival collection of about 8,000 items, virtually everything written in or about Alaska Native Languages, including copies of most of the earliest linguistic documentation. The Center has published over 200 books and booklets for scientific, classroom and general use, including grammars, dictionaries, folklore texts, and audio tapes.

### Center for Cross-Cultural Studies

The Center is the research and development unit of the School of Education. The Center addresses educational issues and problems inherent in Alaska's multicultural population. The Center administers instructional support contracts and grants for the school and issues publications and reports designed to improve cross-cultural understanding.

### Center for Global Change and Arctic System Research (CGCASR)

This campus-wide Center was initiated by the faculty in 1990 as a means for developing, coordinating, implementing interdisciplinary research initiatives, linking many initiatives and resources at UAF, and addressing the role of the Arctic in the total Earth System. Its scientific focus is on understanding the chain of physical, geological, biological, and social processes of the arctic system that interact with the total earth system and global change, in order to contribute to the scientific basis for predicting effects of environmental changes, and formulating policy options in response to the anticipated effects on man and his support systems.

The Center is guided by a Board of Directors constituted of appropriate Deans and Institute Directors, and a Science Steering Committee of faculty from relevant disciplines which provide leadership to five working groups: Physical/Biological interactions and Feedbacks; Arctic Paleoenvironments; Contribution of High

(continued)**

**Center for Global Change and Arctic System Research (CGCASR) (continued)**

Latitudes to the Global Carbon Budget; Terrestrial Ecosystem and Community Dynamics; and Social Aspects of Global Change in the Arctic. The Alaska Data Visualization and Analysis Laboratory (ADVAL) supports digital image processing and geographic information system analysis, especially as it relates to global change research. Its capabilities are relevant to such fields as remote sensing, environmental sciences, geology, geophysics, geography, glaciology, volcanology, land resources management, forestry, oceanography, and mineral exploration and engineering.

**Geophysical Institute (GI)**

The Institute is the only high-latitude research and academic center for geophysics in the United States focused on high-latitude geophysical phenomena. The scientific staff is organized under four research groups: Space Physics and Aeronomy; Atmospheric Sciences; Snow, Ice, and Permafrost; and Solid Earth Research. The Institute participates with other universities and agencies in many cooperative research programs. The following special facilities and projects are operated by the Institute.

*The Alaska Climate Research Center* concentrates on research of Alaskan climatology and climatic trends, on answering requests for digitized climatic data, and maintaining a relationship of mutual cooperation and support with the UAA Climate Center. Mesoscale climate modeling is being done on the NCAR supercomputer (in the future, the Arctic region supercomputer at UAF could be used).

*The Alaska Synthetic Aperture Radar (SAR) Facility*, funded by NASA, receives, processes, and archives data from a new generation of synthetic aperture radar satellites. Its major components are a receiving ground station, SAR processor system and archive operations system, and systems for scientific analysis of SAR data. Sea ice and glacier studies are a primary focus at the Institute, but the facility serves over 100 other projects worldwide as one of eight national data centers established by NASA as part of the Earth Observing System (EOS).

*The Alaska Volcano Observatory (AVO)*, a cooperative program with the Alaska Division of Geological and Geophysical Surveys and the U.S. Geological Survey (USGS), links laboratories in Alaska, Washington, and California by computer to monitor hazardous Alaskan volcanoes and conduct cooperative research. AVO also provides public safety information to the Federal Aviation Administration, National Oceanic and Atmospheric Administration (NOAA), the Alaska Division of Emergency Services, municipal governments, and the public.

*Atmospheric Sciences Laboratories:* The Institute houses a physical chemistry and optics laboratory and operates an atmospheric chemistry laboratory in a nearby building. Atmospheric chemistry measurements are routinely made from the Ester Dome Observatory near the Institute and at Poker Flat Research Range. Radiation, energy balance, and other meteorological measurements are being made at field sites in both polar regions.

*The Computer Resources Center* manages facilities capable of handling large-scale data analysis, satellite image processing, modeling of geophysical processes, and nonlinear plasma simulations.

**Principal  
Research Units  
At UAF  
(continued)**

**Geophysical Institute (continued)**

*The Geo-Data Center* archives institute material, maintains various geophysical data collections to support research, and is the public browse facility for the Alaska High-Altitude Aerial Photography Program. Collections consist of various media, from 16 mm educational movies to 8 mm digital satellite imagery, from earth's current chart data to positive CIR aerial transparencies. SAR, NOAA/AVHRR, and Landsat Quick Look satellite imagery are available and SPOT satellite images may be accessed through the Center.

*Geological Research Support* includes a geochronology lab equipped for argon-argon and potassium-argon dating of geologic samples. The palaeomagnetism laboratory, used for research on Alaska's tectonic history and climate records of young sediments, is equipped with a 2-G superconducting magnetometer. A third laboratory is equipped for preparing samples for geochronologic, magnetic, and geochemical analysis.

*The Geophysical Institute Library* specializes in geophysics and includes numerous compact disk products to access holdings in other polar collections around the world.

*The High Frequency Active Auroral Research Program (HAARP)* is a federal project for experiments to modulate intense electric currents called the auroral electrojet in the auroral ionosphere. A powerful, high-frequency transmitter system is planned for a site south of Fairbanks to conduct and monitor experiments. HAARP is managed by the U.S. Air Force Geophysics Laboratory and the U.S. Navy Office of Naval Research. The Institute leads the *Polar Radio-Science Consortium*, a scientific advisory group for HAARP.

*Optical Observatories:* The Institute's main optical observatory is at Poker Flat Research Range. Observations using satellite communications are made from unmanned all-sky cameras located at remote sites in Alaska and Canada. Down-range observation sites for Poker Flat are at Fort Yukon, with sites planned at Arctic Village and Kaktovik; an optics lab supports these activities. Data from many of these and other observatories are displayed by a data display system called the Geospace Environmental Data Display System (GEDDS). The Institute participates in auroral observations at Svalbard, Norway.

*Poker Flat Research Range* is the largest land-based research rocket range worldwide, and the only high-latitude range in the United States. Since it was established near Fairbanks in 1969 for auroral and middle-to-upper atmosphere research, approximately 234 large sounding rockets have been launched. A major federal project to upgrade launch and observatory facilities is now under way.

*Remote Field Sites:* Much seismology, magnetic, and auroral observing equipment is located at field sites throughout Alaska and northwestern Canada; most sites involve continuously operating, unmanned observing stations. The Alaska-Canada High Latitude Magnetic Chain of Stations is a series of magnetometers following a longitudinal line from Talkeetna, Alaska to Eureka, NWT, Canada. Information from the chain is transmitted via satellite to the World Data Center. A digital ionospheric sounding system at the Sheep Creek site is operated for the Air Force Air Weather Service.

## Principal Research Units At UAF (continued)

### Geophysical Institute (continued)

*Research Support Services* available include the machine shop which supports needs of the Institute and PICO at UAF; the electronics shop supports computing, electronics design and construction, and instrument calibration; Photo-Graphics provides photographic, drafting, mapping, and computer graphics services.

*Satellite Image Analysis Laboratories:* In addition to the Alaska SAR Facility resources, the Institute houses the ADVAL (more fully described under Center for Global Change and Arctic System Research). ADVAL provides analysis of satellite images in conjunction with other data sets.

*Seismic Information and Research:* Monitoring earthquake activity and providing information to citizens and public officials, the Alaska Earthquake Information Center is a cooperative project with the USGS. The network of 120 seismic stations monitored by the Institute's seismology laboratory includes stations of the Institute, the USGS and NOAA's Alaska Tsunami Warning Center. The office of the Alaska state seismologist is located at the laboratory, which also supports basic research on earthquakes and volcanoes.

*Snow, Ice, and Permafrost Laboratories:* The Institute houses three ice laboratories and three cold rooms for permafrost studies, ice core analysis, glaciological research studies and other research requiring simulated cold environments. Field work is also carried out throughout Alaska, Greenland, the Arctic Ocean, and Antarctica.

*Space Grant:* NASA has designated UAF to participate in the National Space Grant program and will fund teaching and research in aeronautics, space, and related fields. The program will provide students with internships in private industry and promote cooperative industry-university research.

*The Space Physics Analysis Center* is equipped with hardware and software to acquire data and images of solar activity and related geophysical phenomena. The system displays the NOAA solar-geophysical data file on sunspots, solar flares, and the solar wind.

*The Tectonics and Sedimentation Group* of the Institute and the UAF Geology Department conduct the Brooks Range Geologic Research Program, a major, long-term research effort to understand the geologic history of the northeastern Brooks Range and provide basic information for resource evaluation.

### Institute of Arctic Biology (IAB)

Established in 1963, the Institute is the principal research arm for life scientists in the CNS. The original mandate of the Institute—the study of adaptations of plants and animals, including humans to past and present climates of the Arctic—is maintained, but has been expanded to include programs in ecology, systematics and molecular biology/biochemistry. Ecology programs include research on aquatic, taiga and tundra sites, including community organization, ecosystem structure and function, functional interactions between plants and animals, and the way in which environmental and organismal processes modify nutrient cycling and decomposition within systems. This ecosystem-level research is closely tied to physiological responses such as herbivory. Physiological programs integrate the endocrine, neurobiological and behavioral adaptations of birds and mammals to highly seasonal and climatologically extreme environments, specifically emphasizing migration, hibernation, and

## Principal Research Units At UAF (continued)

### Institute of Arctic Biology (IAB) (continued)

thermoregulation. A new program in molecular biology and biochemistry has recently been added as a research component. Systematics, biogeography and genetics of organisms within arctic and subarctic ecosystems are being studied to determine the history of migration and evolution of high-latitude organisms. The Alaska Cooperative Fish and Wildlife Research Unit within the institute provides direct interaction with state and federal agencies and supports faculty and graduate student research projects.

The Institute provides a vivarium, animal quarters, surgery and a variety of technical and instrument facilities and services for coordinated and individual research. Special field sites include a 40-acre experimental biological research area on campus and the Large Animal Research Station, housing breeding colonies of muskox, caribou and reindeer, adjacent to the campus. The Institute maintains the only major U.S. field station in the Arctic, at Toolik Lake on the northern foothills of the Brooks Range. Research field camps at Eagle Summit on the alpine tundra, at Cantwell near Denali National Park, and at Halibut Cove on the shores of Kachemak Bay provide a wide range of ecological diversity for specimen collection and research.

The Institute maintains a strong international tie with scientists and institutes through cooperative research in Europe, Scandinavia, Russia, Central America, and Africa.

The faculty have joint appointments with instructional colleges, and participate in offering courses and graduate programs leading to both master's and Ph.D. degrees in a variety of subjects related to arctic biology.

### Institute of Northern Engineering (INE)

The Institute is the research arm of the School of Engineering. INE is comprised of three research centers and one laboratory: the Engineering Research Center (ERL), the Transportation Research Center (TRC), the Water Research Center (WRC), and the Environmental Technology Laboratory. INE's objective is to provide faculty and students with research opportunities in support of the engineering programs offered by SOE. Research through the Centers is conducted in the program areas of civil, electrical, environmental, management, mechanical, and transportation engineering. A special focus exists on cold regions water-related problems in Alaska and other northern areas. Many of the research programs conducted at INE investigate problems of particular concern to Alaska, while others are of interest to the national and international communities as well.

*Alaska Space Grant Program* is a cooperative effort with the Geophysical Institute. It supports a broad spectrum of activities to enhance the aerospace capabilities at UAF through grants for research, curriculum development, graduate student fellowships, and aerospace scholarships. The majority of the funding is dedicated to graduate stipends and scholarships for undergraduate students involved in ongoing aerospace research and design projects. INE provides faculty, staff, and student support, as well as space in the Duckering Building.

*Engineering Research Center:* Ongoing research at the Center encompasses a diversity of fields ranging from basic investigations of geomagnetically induced currents in power systems (conducted in cooperation with the GI) to the design and testing of a ground source heat pump systems. Some research is quite "high tech".

Principal  
Research Units  
At UAF  
(continued)

Institute of Northern Engineering (INE) (continued)

*Engineering Research Center (continued)*

while other projects might seem mundane—yet all work at INE is aimed at providing timely and practical solutions to problems that affect everyone.

*Environmental Technology Laboratory:* The goals of the Laboratory are to: conduct research relating to the management of the environment; facilitate technology transfer on environmental issues; act as a networking center for information and expertise within the University; provide a center of expertise in Alaska on environmental and resource management; facilitate access to and use of information and expertise by industry, business, and government; provide funding for research and graduate studies; and promote and enhance effective environmental education.

*Transportation Research Center:* The Center is the focal point of Alaskan transportation research for the Alaska Department of Transportation and Public Facilities (DOT&PF). TRC continues to have a major impact in Alaska, particularly where transportation infrastructure needs to be developed and researched as a necessity for the industrial development and economic growth of the state. TRC serves a major role in conducting research and administering transportation education in Alaska. Research projects address such areas as pavement materials, pavement design and rehabilitation, bridges and transportation planning, traffic operations and design of stable roadways over permafrost. Many projects are conducted jointly with DOT&PF. TRC is a member of the Transportation Northwest Regional Center, and serves as a liaison representing the UAF at the Transportation Research Board in Washington, DC. The Alaska Transportation Forum, an annual meeting hosted by TRC, addresses the unique problems of Alaskan transportation. TRC has also developed the Alaska Cooperative Transportation and Public Research Program, which provides a system by which DOT&PF research needs can be met.

*Water Research Center:* Solving water problems in Alaska is complicated by the sparse availability of data, poor quality of much of the existing data, the presence of unique phenomena (such as permafrost), low air and soil temperatures, a hydrologic cycle dominated by snow and ice, extensive wetlands, and the sheer vastness of this state. Water related problems abound in the realms of alternative energy, water quality and quantity, environmental quality related to normal development, as well as petroleum and resource extraction, wastewater treatment, fisheries, forestry, arctic engineering, and water law. WRC conducts studies in hydrology, hydrogeology, hydraulics, limnology, climate change, fisheries, water chemistry, microbiology, isotopic geochemistry, oil spill, and applied technology. Specific capabilities include state-of-the-art analyses of major and minor inorganic constituents in water, sediments, minerals, wastes and living biological materials.

Research tools include a variety of computer systems with a wide range of peripherals/software, and major equipment such as mass spectrometry, flame and graphite furnace atomic absorption, and gas and liquid (ion exchange) chromatography.

WRC takes a broader view, providing solutions to problems facing northern peoples outside as well as inside Alaska. Our development of time domain reflectometry for the in situ measurement of the unfrozen water content of soils and snowpacks, for example, has a profound potential for solving problems ranging from snowmelt flooding to designing roads and minimizing frost heave. Cooperative research with Canadian and European countries has provided partial solutions to a diverse array of

**Principal  
Research Units  
At UAF  
(continued)**

**Institute of Northern Engineering (INE) (continued)**

***Water Research Center (continued)***

problems. Some of this work, such as WRC's continuing program related to arsenic and heavy metal contamination, has immediate application to the northwestern United States, Canada, and Europe, as well as Alaska.

**Mineral Industry Research Laboratory**

This Laboratory was created by the Alaska State Legislature in 1963, with a mandate to conduct basic and applied research on problems of the mineral industries and to cooperate with the State and Federal government agencies. It conducts applied and basic research in areas such as coal preparation, coal science, mineral beneficiation, mine and mill design, new resource development, improved exploration and prospecting methods, and modern heap leaching technology.

**Petroleum Development Laboratory**

The primary function of this Laboratory is to explore various aspects of enhanced oil recovery research, including the production of heavy oil through thermal recovery and miscible oil displacement. The goal is to transfer the information from the laboratory and field experiments to engineers who can apply it to problems in the oil fields.

**School of Fisheries and Ocean Sciences (SFOS)**

SFOS was established in 1987. All existing marine and fisheries components were brought together to focus, strengthen and further develop the programs, while avoiding duplication of effort. The mission of SFOS is to provide academic research, education and public service in all marine and fisheries areas of Alaska.

***Alaska Sea Grant College Program***

The Program is a marine research, education, and public information and technology transfer program housed in SFOS. The program is administered and primarily funded by the NOAA, U.S. Department of Commerce, with matching funds allocated by the State of Alaska. The Program funds university research that broadens knowledge of the marine environment and supports sustainable use of Alaska's marine resources. Seafood science and economics, oceanography, and marine biology are primary areas of Sea Grant-sponsored studies. Sea Grant also plans and participates in formal and informal state and national forums on fisheries management and development, marine mammal issues, and environmental issues important to industries that depend on the long-term viability of marine resources. Program advisory agents, located in coastal communities, transfer information between coastal constituents and UAF.

***Fishery Industrial Technology Center (FITC)***

The FITC, an applied research arm of SFOS, was established in 1981. It is located in a new 20,000 sq.ft. seafood processing research and development facility in Kodiak. The FITC's responsibilities include: fisheries science and harvesting technology, seafood science and processing technology, technology transfer, and instruction. Present research areas at the Center include studies of the chemical and physical properties of fish proteins, microbiological stability of seafood, fish behavior during capture by trawl gear, methods for full utilization of fishery products and development of new seafood products.

**Principal  
Research Units  
At UAF  
(continued)**

**School of Fisheries and Ocean Sciences (SFOS) (continued)**

***Institute of Marine Science (IMS)***

The Institute was established in 1960 and is a major research arm of the SFOS. Its research foci include interdisciplinary studies of high latitude seas including the Bering, Beaufort, and Chukchi Seas and the seasonal sea-ice zone; the ecology, biology, and physiology of high-latitude organisms, ranging from plankton to marine mammals; and physical oceanographic studies of the Gulf of Alaska, Bering, Chukchi, and Beaufort Seas. Current research projects include: studies on water circulation in the Gulf of Alaska; carbon and nutrient cycles; environmental studies relating to the *Exxon Valdez* oil spill; marine mammals, shellfish and finfish biology; studies on sedimentation and origin of the continental shelf of Alaska; and satellite remote sensing of ice-covered seas. The Institute includes a variety of research facilities, which are described below.

*Flow Cytometry Facility:* The development of high resolution flow cytometry at UAF has enabled rapid counting, measurement, sorting, and biochemical analysis of small microorganisms, such as aquatic bacteria. Marine bacteria represent a large proportion of the ocean biota, and flow cytometry is helping to develop better understanding of their role in marine ecosystems. Analysis and sorting of other particles such as algae, spores, blood cells, and blood parasites is possible.

*Research Vessel Alpha Helix:* The Seward Marine Center is home port for the R/V *Alpha Helix*, a 133-ft ice-strengthened research vessel operated by IMS for NSF. The vessel provides living quarters for 15 scientists and a crew of nine and is used by researchers conducting a wide range of oceanographic studies at high latitudes.

*Seward Marine Center:* The Center supports IMS's coastal and marine biological research, oceanographic research, and education. The Center provides access to salt water laboratories and coastal environments at the head of Resurrection Bay.

***Juneau Center, School of Fisheries and Ocean Sciences***

The Center is located on Auke Bay and is the principal site for graduate studies in marine fisheries for SFOS. Research areas include genetic improvement of salmon broodstocks, aging and growth of larval fish, population dynamics and management of marine fish and invertebrates. The Center's sea water system, lab facilities and small skiffs provide excellent access for marine studies in southeastern Alaska.

***Kasitsna Bay Laboratory***

This coastal field station supports teaching and research projects and is an excellent facility for studies of intertidal and near-shore organisms and environments. It is located eight miles from Seldovia on the south shore of Kachemak Bay. The facility includes several laboratories, skiffs, and housing for sixteen.

***Marine Advisory Program***

The Program was established in 1970 and earned Sea Grant College status for UAF in 1980; it is administered by the SFOS. Its staff regularly participates in state and national discussions on fisheries management and development, marine mammal issues, and environmental issues which are important to the long-term viability of marine resources based on marine industries.

**Principal  
Research Units  
At UAF  
(continued)**

**School of Fisheries and Ocean Sciences (SFOS) (continued)**

***Marine Advisory Program (continued)***

SFOS transfers useful research results and other practical information to coastal businesses and others who can use the latest information on marine resources. The information is conveyed via the Program, which consists of SFOS faculty and support staff located in eight coastal Alaska communities. These marine advisory personnel work closely with coastal industries, governments, and the public to convey useful research results and other practical information that support the wise and safe use of Alaska's marine resources. Advisory faculty also identify and relay research needs back to university scientists.

***West Coast National Undersea Research Center***

This Center was established in 1990. The Center's mission is to promote, facilitate, and support quality undersea research along the west coast of the U.S. including the western Arctic and, because of UAF's commitment to polar research, Antarctica. Collaborative projects with other Pacific Rim nations are also encouraged. Cooperative agreements with the U.S. Navy and the Japan Marine Science and Technology Center have expanded the scope of research opportunities available.

Alaska's vast coastal area (over 50% of the entire U.S. coastline, 85% of the western coastline, and 74% of the U.S. continental shelf area) and major proportion of U.S. fisheries resources (over 50%), as well as the research facilities and expertise available at UAF, explains the placement of the Center in Alaska.

The Center receives and evaluates research proposals from scientists in the private sector, state and federal agencies, and universities. Project funding is awarded following a peer review process. The Center also coordinates cruise plans and the scheduling of undersea vehicles for scientists whose proposals have been accepted. Projects supported typically address questions that require the use of two- or three-person research submarines, remotely operated vehicles (ROVs), or side-scan sonar, plus support vessels. Vehicles and instruments provided by the Center are either leased or, in the case of shallow water ROVs, borrowed from other undersea centers. This arrangement allows gear to be matched to project needs.

The Center has sponsored research projects from the Chukchi Sea, north of Bering Strait, to Monterey Bay in California, and expects this geographical range to expand as increasing numbers of proposals are received. The Center has funded studies on the sediment-water interface, cold methane vents, marine geology, zoo-plankton abundance, benthic ecology and fisheries-related studies.

***University of Alaska Museum***

The main research objectives of the Museum are to acquire and develop systematic research collections resulting from or forming the basis of object- or organism-based research on Alaska, the Arctic and Subarctic, and to conduct collection-based research in the Cultural, Earth, and the Life Sciences.

*The Alaska Quaternary Center:* This Center, established in 1983, serves as the focus for interdisciplinary research in Quaternary Studies. This consortium of Quaternary scientists includes terrestrial and marine geology, paleolimnology, geography, climatology, tephrochronology, plant and animal ecology, palynology, vertebrate paleoecology, micropaleontology, ethnology, archaeology and human ecology.

**Principal  
Research Units  
At UAF  
(continued)**

**University of Alaska Museum (continued)**

*Northern Center for Systematics and Biodiversity:* This Center meets the need for the physical documentation of biodiversity and for specimen-based information on flora and fauna of Alaska and the circumpolar north. Among its priorities is the development of an electronic database on the flora and fauna derived from specimens. Curators and staff collaborate with scientists from other countries in the Panarctic Biota Project to produce an inventory of arctic plants and animals. The Alaska Frozen Tissue Collection is the sole source for tissue samples for molecular genetic studies of Alaskan and Beringian fauna.

**Interdisciplinary  
Research  
Programs**

**Atmospheric Chemistry**

Atmospheric Chemistry, administered by the Department of Chemistry, seeks to understand the complex changes resulting from natural and human influences. Research underway is focusing on the problems of the Greenhouse Effect, arctic ozone holes, acid rain, arctic pollution and natural sulfur emissions and climate.

**Biochemistry and Molecular Biology**

This program is administered by the Department of Chemistry. Its research deals with molecular approaches to biological phenomena, exemplified by studies of evolutionary relatedness of arctic animals by analysis of DNA, molecular mechanisms of gene control in bacteria and higher organisms, the structure and function of light harvesting proteins in marine algae, the possible roles of metals in human disease and biochemical adaptations to the North. The program interacts with other programs such as Environmental Science and Northern Studies.

**Environmental Sciences**

Graduate research in Environmental Sciences may be emphasized/pursued through several departments: Natural Resources Management, Environmental Quality Engineering or Science, Marine Biology, Wildlife Management and other areas.

**Northern Studies**

Studies of northern policy issues and the cultural, historical, economic and political contexts of the circumpolar north can be undertaken through departments of the College of Liberal Arts, including anthropology, economics, geography, history, political science and psychology.

**Research,  
Instruction, and  
Service Support**

**Alaska Cooperative Extension**

ACE represents a unique entity within UAF. It is part of a nationwide educational system which functions in a cooperative relationship between the federal government through the USDA and the various states through land-grant colleges and universities. The legal status of ACE is provided through the federal Smith-Lever Act.

## Research Instruction Service (cont.)

### Alaska Cooperative Extension (ACE) (continued)

Alaska State statutes, and a Memorandum of Agreement between USDA and UAF. The mission of CES is to interpret and extend relevant, research based knowledge in an understandable and usable form, and to encourage the application of this knowledge to solve problems and challenges that face the people of Alaska. Extension education in Alaska is delivered by faculty located in communities in 11 off-campus sites. Major program areas includes: Home Economics, 4-H Youth Development, Agriculture & Nature Resources and Community Development and are as follows:

*Agriculture and Nature Resources* focuses on educational programs covering production agriculture, livestock, agronomy and commercial horticulture, forestry, natural resource management, and public policy.

*Community Resource Development* is an extension education program intended to assist communities in the facilitation of local organizational process and community decision making in areas of: community economic development, local government and leadership education.

*4-H Youth Development* is an educational program of the University of Alaska and Land Grant System in cooperation with USDA. Youth and adults learn vocational and life skills, develop leadership and self esteem, and engage in community service.

*Home Economics* is designed to address the quality of family life and the home environment. Program areas include: food safety and quality; family stability; nutrition, diet and health, including EFNEP; parenting and child development; housing and energy; resource management, clothing; and senior programs.

### Arctic Region Supercomputing Center

UAF's Arctic Region Supercomputing Center (ARSC) is a state-of-the-art high-performance supercomputing center established as part of the Department of Defense's Strategic Environmental Research and Development Program. The center's mission is to support environmental research and science with an emphasis on the Arctic. ARSC operates a CRAY T3D massively parallel processor (MPP) computer that has 128 processing elements, providing 20 GFLOPS of peak performance, and has two gigabytes of global memory.

### Electron Microscope Laboratory

Transmission and scanning electron microscopes, specimen preparation and photographic equipment are managed by a users committee and professional staff to support research in a variety of areas including arctic biology and human health.

### Elmer E. Rasmuson Library/Media Center

The library has over 1.5 million bibliographic items in a variety of print and audiovisual media. It manages GNOSIS and participates in the WLN bibliographic network (and other services) to provide electronic access to over 12 million items nationwide.

*The Alaska and Polar Regions Collections* include the world-class Alaska Collection, the University Archives and Manuscripts collection, historical photographs, rare books and maps, and the oral history materials.

*The Bio-Sciences Library*, housed in the Arctic Health Building, specializes in periodicals for health and life sciences, as they relate to cold regions research.

BEST COPY AVAILABLE

1-35

47

## Research Instruction Service (cont.)

*Elmernet*, the local area network, gives patrons access to 19 CD-ROM databases containing over 20 million citations. Elmernet is available through workstations in the library, personal computers in individual departments connected to the campus-wide network, and open dial-up access to UAF users throughout the state.

*The Geophysical Institute Library* specializes in geophysics and includes numerous compact disk products to access holdings in other polar collections around the world.

*Uncover*, the CARL document delivery system, allows patrons to search for articles in over 12,000 journals. Requests for the full article are sent electronically via Internet and the article is delivered within 24 hours by facsimile to the library.

### Microbeam Elemental Analysis Facility

UAF, through the Department of Geology and Geophysics, maintains a Cameca SX-50 electron microprobe, a state-of-the-art instrument capable of determining elemental abundance (all elements heavier than Be) in areas as small as 1 micron in diameter. The system can map elemental distributions in small areas.

### Polar Ice Coring Office (PICO)

UAF hosts this international, NSF-funded program to extract ice cores from glaciers around the world, more than 3,000 meters deep, for a variety of research studies conducted by UAF and other NSF grantees. PICO draws upon, and enlarges, UAF's arctic experience, especially in engineering, and polar research. Ice sheets contain prehistoric records of annual precipitation, atmospheric temperature and composition, solar activity and volcanic eruptions; ice core samples therefore provide a detailed, historical database of climatological data which will be of inestimable value to analyze apparent global warming trends. PICO provides a variety of logistical and technical support to NSF-sponsored research in remote and/or glaciated regions of the world, such as Antarctica, China, Peru, Alaska and Wyoming. PICO designs and builds a hot water drill for use at South Pole Station to place neutrino detectors, one kilometer deep in the ice. Additionally, in close cooperation with UAF professors, graduate and native students, PICO conducts research and development on more efficient, environmentally safe drilling equipment and methods.

### Proposal Office

The office performs a threefold mission. Primarily, it is responsible for researching funding opportunities to match interests at UAF, and to assist faculty and professionals in meeting their funding goals for research, scholarly activities, education, and service. Secondly, the Proposal Office assists with the preparation and submittal of funding proposals, and seeks to ensure that proposals meet University, State, Federal and funding agency requirements. Finally, the office provides reports and analyses to UAF administration that are important for accountability and planning purposes.

### University of Alaska Press

The Press publishes scholarly nonfiction works in all disciplines concerning Alaska, the North Pacific Rim, and circumpolar regions. Submitted manuscripts receive the UA Press imprint after an Editorial Board, the final authority, gives its acceptance.

It has four continuing series: 1) the *Classic Reprint Series*; 2) the *Monograph Series*; 3) the *Oral Biographies Series*; and 4) *The Rasmuson Library Historical Translations* is designed to publish historically important primary and secondary foreign language source material on Alaska in English.

---

## Section 2

# HIGHLIGHTS

---

### Introduction

Section 2 contains academic and assessment information. Table 2.1 lists all degree and certificate programs offered at UAF by campus along with program attribute information, such as the minimum number of credits required for the degree. Tables 2.2 and 2.3 present two different measures of instructional workload; class size and sections taught data as well as student/faculty ratios. Tables 2.4 and 2.5 begin to provide assessment information concerning entrance test scores and grades earned at UAF. Lastly, Tables 2.7 through 2.9 summarize current domicile data on UAF alumni.

### Changes from Fact Book '93

No new tables have been added to this year's Fact Book, however the tables have been modified for clearer readability. A graph to represent the 'average class size by department for upper division' has been introduced in section 2.2.

### Highlights

- UAF added a Bachelor of Arts program in Japanese Studies.
- For the second year in a row, the overall UAF student faculty ratio increased. In Fall 93, the SFR was 15.3 (+1%). The greatest increases were for upper division undergraduate courses (+5%) and for graduate courses (+4%). Developmental education courses had a slight decrease of 1% while lower division courses had no change from last year's ratio.
- The average Fall 1993 lower division lecture class size was 20 students, for upper division it was 15, and for graduate it was 10.
- In FY93, UAF graduated 706 students (-0.8%). The greatest increase was in associate degrees awarded at 115 (+13.9%).
- 49.6% of the UAF alumni live in the state of Alaska and 45% of these alumni live in the Fairbanks area.

# TABLE 2.1 FY94 Degree and Certificate Program Inventory

	Min Credits Req'd	UAF PROGRAM SITES							Also Offered by UAA UAS	
		Fbks	Arctic Sivun.	Bristol Bay	Chukchi	Interior	Kuskok- wim	North- west		
<b>MASTER OF BUSINESS ADMINISTRATION</b>										
52.0201 Business Administration	30	O(FY70)							1	O O
<b>MASTER OF CIVIL ENGINEERING</b>										
14.0801 Civil Engineering	30	O(FY68)							1	O
<b>MASTER OF EDUCATION</b>										
13.0406 College Student Personnel Ad O(FY76)		S(FY88)							S	
13.0101 Education	36	C(FY55)							1	O
13.1101 Guidance and Counseling	42	O(FY76)							1	O
13.0499 Vocational Administration O(FY76)		X(FY89)								
13.1320 Vocational Education O(FY76)		X(FY89)								
<b>MASTER OF ELECTRICAL ENGINEERING</b>										
14.1001 Electrical Engineering	32	O(FY68)							1	
<b>MASTER OF SCIENCE</b>										
14.9999 Arctic Engineering	30	O(FY76)							1	O
40.0401 Atmospheric Science	30	O(FY78)							1	
26.0402 Biochemistry/Molecular Biology	30	O(FY91)							1	
26.0101 Biology	30	O(FY60)							1	
26.0301 Botany	30	O(FY60)							1	
40.0501 Chemistry	30	O(FY60)							1	
14.0801 Civil Engineering	30	O(FY64)							1	O
11.0701 Computer Science	30	O(FY85)							1	
14.1001 Electrical Engineering	30	O(FY69)							1	
14.1701 Engineering Management	33	O(FY61)							1	O
14.1401 Environmental Quality Engineering	30	O(FY70)							1	O
14.1401 Environmental Quality Science	30	O(FY76)							1	O
03.0301 Fisheries	30	O(FY64)							1	
30.0101 General Science	30	O(FY62)							1	
14.1501 Geological Engineering	33	O(FY80)							1	
40.0601 Geology	30	O(FY59)							1	
40.0603 Geophysics	36	O(FY54)							1	
30.9999 Interdisciplinary Studies	30	O(FY70)							1	O

- NOTES: (1) Student FTE is a hypothetical student who enrolls in 15 undergraduate or 12 graduate credit hours per semester. The student FTEs in this table are course-based, not student-level based, indicators of productivity.
- (2) Faculty FTE is, for non-thesis/research/practicum/individual study/intern courses, equal to the number of fall semester undergraduate course credit hours taught divided by 12 and the number of graduate credit hours divided by 9. For thesis/research/practicum/individual study/intern undergraduate courses and courses with less than three students, equals student credit hours divided by (5 x 12); for similar type graduate courses, equals student credit hours divided by (3 x 9). No Faculty was equated to more than 1.00 faculty FTE.
- (3) Student Faculty Ratio is the student FTEs divided by the faculty FTEs.
- (4) Includes upper division and graduate/professional credit hours from Chukchi Campus, Interior Campus, and Northwest Campus.
- (5) Includes upper division and graduate/professional credit hours from Chukchi Campus, Interior Campus, Kuskokwim Campus, and Northwest Campus.
- (6) Includes Bristol Bay Campus, Chukchi Campus, Distance Delivery, Independent Learning, Interior Campus, Kuskokwim Campus, Northwest Campus, Tanana Valley Campus, and SFOS Juneau.

NOTES: (1) Beginning Fall 1989, UAF began accepting either ACT or SAT scores.  
 (2) Beginning Fall 1990, the Enhanced ACT replaced the ACT.  
 (3) Both ACT and SAT scores are reported for students who took both tests.

NOTES: (1) A program with an 'X' indicates the program has been or is scheduled to be deleted; an 'S' indicates a temporary suspension of the program.  
 (2) A dash in the AWARDS field indicates the program was not offered that year.  
 (3) Currently offered programs are shaded if a) they are 10+ years old, b) since FY89, Masters and below have yielded less than 5 awards, doctoral less than 2 awards.  
 (4) AVG SCH cells are shaded if SCH is: a) +50 for Certificate or Masters, b) +75 for Associates, or c) +155 for bachelors. (UAF SCH only, excludes transfer SCH).

## Section 3

# HIGHLIGHTS

---

### Introduction

Section 3 contains information on UAF students. The information concerning applications, admissions, and new/returning students is summarized in Tables 3.1 and 3.2. Table 3.3 through 3.5 show where UAF students came from by nation, state, or Alaskan community. Student attribute information is contained in Tables 3.6 through 3.9. Lastly, credit hour and FTE trend data are provided in Table 3.10 through 3.13.

### Changes from Fact Book '93

Existing graphs have been enhanced to highlight key comparisons or changes. The graph for table 3.7 has been modified to show a three year as against a two year average change in majors by department. The Artic Sivunmun Iisagvik College is now an independent unit and hence not listed with the College of Rural Alaska.

### Highlights

- Student headcount had a slight increase of 4% over the previous Fall, however there was a 6% increase in full-time and 1.4% increase in part-time students. In addition, there was a 12% increase in students from other states, a 5.6% increase in international students, and a 3% increase in Alaskan students.
- Minority students increased by 6.4% in Fall 1993 with Asian students (+19%) and Hispanic students (+14.5%) showing the greatest gains.
- Certificate major students increased by 24% in Fall 1993. There was a 10.25% increase in associate degree students, a 6.5% increase in masters students, a 3.6% increase in bachelors students and a 0.9% increase in non-degree seeking students.
- Every college/school had an increase in masters degree students except the School of Natural Sciences. The College of Rural Alaska alone had an increase in its certificates, associates and bachelors majors.
- UAF continues to have modest growth with student credit hours (+6%). Credit hours increased with the largest gains in upper division SCH (+9.1%) and graduate (+6.4%).

NOTES: (1) A program with an 'X' indicates the program has been or is scheduled to be deleted; an 'S' indicates a temporary suspension of the program.  
 (2) A dash in the headcount field indicates the program was not offered that year.  
 (3) An 'na' indicates data concerning this program were not applicable.

## Section 4

# HIGHLIGHTS

---

### Introduction

Section 4 contains faculty and staff information as well as selected comparative salary statistics. Table 4.1 contains four years of trend data on full and part-time employees by job category. Table 4.2 contains data on full and part-time employees by gender, ethnicity, and job category for UAF colleges/schools and administrative divisions. Table 4.3 is a two year comparison of full-time employees by gender, ethnicity, and job category for UAF departments and administrative divisions. Tables 4.4 through 4.6 contain UAF-specific data on full-time faculty concerning tenure status, salary, demographics, highest degree earned, and years in rank by academic department.

### Changes from Fact Book '93

No new tables have been added to this year's Fact Book, however the tables have been modified for clearer readability. In addition, a fourth year of trend data has been added to Table 4.1.

### Highlights

- Full-time employees increased to 1,665 (+2%). The increases were in the following job categories: maintenance (+8%), technical (+6%), and clerical (+5%). The remaining job categories only decreased by 1% or less.
- Part-time employees increased to 1,798 (+2%). The increases were in the following job categories: skilled (+83%), maintenance (+81%), graduate assistants (+23%), faculty (+6%) and student help (+2%). Decreases were seen in technical (-28%), professional (-14%), and clerical (-12%).
- In FY94, 262 (51%) of all UAF full-time faculty were tenured (60% of tenure track faculty) and 67% held doctorates.
- There were 44 minority faculty (9%) and of these 15 were tenured. 131 (25%) of all full-time faculty were female and of these females 44 (46% of female tenure track faculty) were tenured.
- Average FY94 salaries were lower for females in all full-time employee categories except maintenance and the average full-time female salary was over \$14 thousand a year less than the average male.

NOTES: (1) The column labeled "% Minority", is the ratio of the number of resident non-white employees divided by the number of resident employees. An employee EEO category with 20 or more employees is shaded if its minority percentage lies outside the range 10 % to 40 %.

(2) In the column labeled "% Female", a cell is shaded if the total number of employees is 20 or more and the percent that are female is less than 20 %, or greater than 80 %.

(3) Some department designations / breakouts for employees (in SOE, CRA, SME, and some institutes) do not match the actual organizational structure. Academic information has been poorly maintained on the HRS system and also does not reflect current UAF policies regarding faculty. This situation necessitated extensive manual data manipulation prior to the creation of the tables in this section.

(4) Includes one Professional Staff employee from Summer Sessions.

Sources: UAF Fall '93 (October 23) HRS Extract; UAF Academic Affairs; College/School officers; Personnel Services; Faculty Development.

NOTE: (1) 23 full-time faculty served in Administrative positions in FY94 and were recoded as such.

(2) The column "% Res F" is the percent of faculty that is female for each rank cohort after non-resident aliens are excluded.

(3) The column "% Res Minor." is the percent of faculty that is non-white for each rank cohort after non-resident aliens are excluded.

## Section 5

# HIGHLIGHTS

---

### Introduction

Section 5 contains budget and financial information for the University as well as selected comparative statistics. Tables 5.1 through 5.4 include data on general UAF revenues and expenditures. Tables 5.5 through 5.7 contain UAF-specific data on state student financial aid, graduate support, and tuition rates. Tables 5.8 through 5.11 include comparisons between Alaska and other states.

### Changes from Fact Book '93

Existing graphs have been improved upon and better formatted. A pie chart has been included to detail the 'current funds revenue by branch campus'. The unrestricted expenditures trend for instruction, academic and institutional support, public and student services, plant maintenance and student aid have been provided.

### Highlights

- UAF unrestricted Education & General revenue increased by nearly \$2.8 million (+2.5%) in FY93. This can be attributed to an increase of \$2.14 million (+21%) in student fees, \$0.1 million in federal support (+8.5%), and \$0.5 million (+10.6%) in endowments/other. An increase of \$8.83 million (+18.5%) was realized in restricted fund revenues. However, unlike the previous year, the state support decreased by \$0.26 million (-0.3%).
- Unrestricted expenditures increased by \$2.3 million (+2.1%). Student Aid increased by the greatest dollar amount; \$0.73 million (35%). Organized Research followed, with an increase of \$0.6 million (2.6%).
- Unrestricted direct gift revenues increased by nearly \$0.3 million (+59.6%), however restricted gift revenues decreased by (-0.8%).
- Resident undergraduate tuition and fee charges at UAF are 12.9% greater (resident graduate 17.3% greater) than the average charges at comparable public universities in the Western U.S.
- 64% of the undergraduate students receiving State Student Loans were enrolled in-state while 32% of graduate students were enrolled in-state.
- Nationwide, thirteen states reported two-year percentage decreases and ten states reported one-year percentage decreases in state support. Eight of these states had both negative one-year and two-year percentages or actual declines for 2 consecutive years.

	Funds (x\$1,000)	Statutory Reference
<b>FY94 University Request (1)</b>	<b>\$187,206.2</b>	
Beginning Authorization	\$166,041.3	
Conference	\$171,206.6	SLA 93 Chap 65 Sec 38, 40
Special Appropriations FY92-93	\$522.2	
ACCFT Settlement	\$522.2	HB 158 Sec 6
<b>FY94 Final Authorization</b>	<b>\$171,728.8</b>	
<b>FY93 University Request</b>	<b>\$181,221.7</b>	
Beginning Authorization	\$166,041.3	
Conference	\$166,491.3	SLA 92 Chap 136 Sec 44
Vetoed	(\$450.0)	SLA 92 Chap 136 Sec 44
Supplemental Appropriations	\$1,962.0	
Judgements & Claims	\$1,150.0	SB 165 Sec 57
UAF Snow Removal	\$275.0	SB 165 Sec 121
Sitka Campus	\$30.0	SB 165 Sec 145
ACCFT Settlement FY93 Cost	\$507.0	SB 158 Sec 5
<b>FY93 Final Authorization</b>	<b>\$168,003.3</b>	
<b>FY92 University Request</b>	<b>\$189,369.3</b>	
Beginning Authorization	\$168,101.6	
Conference	\$175,273.0	SLA 91 Chap 73 Sec 40
Vetoed	(\$7,173.0)	SLA 91 Chap 73 Sec 40
Re-Approp - UAA Library	\$1.6	SLA 91 Chap 96 Sec 58 (B)
Supplemental Appropriations	\$27.0	
Prince William Sound ACCFT Salary Adj	\$27.0	SLA 92 Chap 5 Sec 70
Special Appropriations FY92-93	\$4,583.8	
Bornstein Arbitration	\$3,187.7	SLA 92 Chap 5 Sec 24
Judgements & Claims	\$256.1	SLA 92 Chap 5 Sec 49
Power Plant Cooling	\$940.0	SLA 92 Chap 5 Sec 50
UAS VAX	\$200.0	SLA 92 Chap 5 Sec 79
<b>FY92 Final Authorization</b>	<b>\$172,712.4</b>	
<b>FY91 University Request</b>	<b>\$178,281.7</b>	
Beginning Authorization	\$164,324.6	
Conference	\$164,023.1	SLA 90 Chap 209 Sec 139
Special Approp- FY91 Salary COLA	\$4,005.6	SLA 90 Chap 45 Sec 4 (B)
Vetoed	(\$3,904.1)	SLA 90 Chap 209 Sec 139
Fiscal Note: HB 402-App'd Telecom Ctr	\$200.0	SLA 90
Supplemental Appropriations	\$8,057.7	
Middle East	\$442.1	SLA 90 Chap 1 Sec 30
UAF Snow Removal	\$222.1	SLA 90 Chap 1 Sec 31
AK Spaco Grant Program	\$100.0	SLA 91 Chap 95 Sec 108
UAS Hazardous Material	\$150.0	SLA 91 Chap 96 Sec 104
UAF/Construction Claim	\$650.0	SLA 91 Chap 96 Sec 112
Retro Salary Adjustment	\$3,253.5	SLA 91 Chap 96 Sec 120
ACCFT Arbitration Settlement	\$1,220.0	SLA 91 Chap 96 Sec 134
Institute for Circumpolar Health	\$20.0	SLA 91 Chap 1 Sec 32
Special Appropriations FY91-92	\$52.0	
Office of Soviet Relations	\$22.0	SLA 91 Chap 96 Sec 157
Alaska Native Lang Ctr	\$30.0	SLA 91 Chap 96 Sec 158
<b>FY91 Final Authorization</b>	<b>\$170,434.3</b>	
<b>FY90 University Request</b>	<b>\$180,626.1</b>	
Beginning Authorization	\$159,074.9	
Conference	\$158,849.9	SLA 89 Chap 116
Re-Appropriation FY89-90 Seismic	\$225.0	SLA 89 Chap 117 Sec 196
Supplemental Appropriations	\$1,939.7	
Retro Salary Adjustment	\$1,922.7	SLA 91 Chap 45 Sec 4
World Trade Center	\$17.0	SLA 91 Chap 57 Sec 72
<b>FY90 Final Authorization</b>	<b>\$161,014.6</b>	

NOTES Restructuring of rural campuses occurred in FY87.  
(1) University Request includes adjusted base plus increments.

NOTES: (1) The consolidated tuition rate was changed from 12 to 13 credit hours for FY90.

(2) Students enrolled in three or less credit hours are charged in-state rates regardless of residency status.

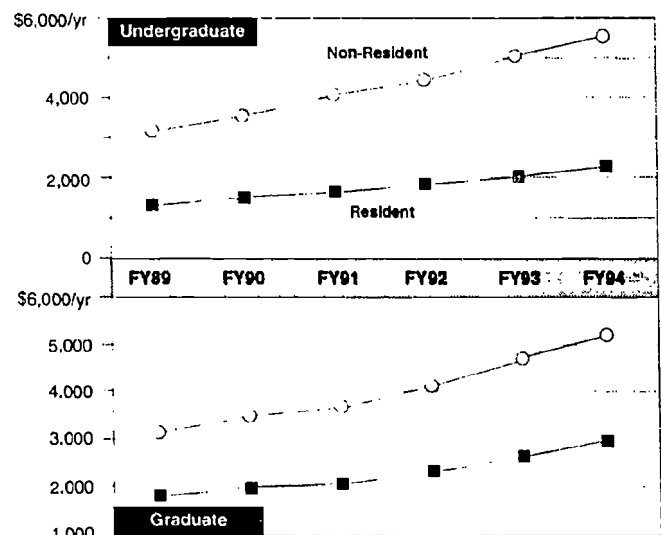

(3) In FY92 students enrolled in lower division classes were charged \$43 & \$150/cr. hr. for resident and non-resident tuition respectively.

#1 RESIDENT STUDENT SOURCE. High school graduates per 1,000 population (B/A). This is the primary source of entering freshmen at public institutions in the state and is therefore the best single starting base for deriving total enrollments. The state's primary higher education responsibility is to provide post-secondary educational opportunities to its own resident high school graduates.

#2 PARTICIPATION RATIO. Annual full-time equivalent enrollment in public institutions of higher education per high school graduate (C/B). This ratio measures the degree to which a state provides attractive and accessible opportunities for higher education to both in-state and out-of-state students relative to the size of its resident student source. High ratios indicate states heavily in the "business" of higher education compared to their basic responsibility to high school graduates.

#3 TAX CAPACITY. The potential of state and local governments to raise revenues for public purposes through various kinds of taxes (D/A). Measured by a "representative tax system" that defines the tax capacity of a state and its local governments as the amount of revenue they could raise if all 50 state-local systems applied identical tax rates (national averages) to their respective tax bases. Adjustment by the COG index establishes equivalent state purchasing power by correcting for geographical price differences.

UNITED STATES 100 % 100

#4 TAX EFFORT. State and local tax revenues collected as a percentage of state and local tax capacity (E/D). Tax effort measures, as a percentage, how much of the state and local government tax capacity is actually used. The tax revenues collected for all states equals total tax capacity nationwide, so that the national effort, by definition, is 100 percent. Effort measures for the individual states indicate how they compare with the national average.

UNITED STATES 6 % 100

#5 ALLOCATION TO PUBLIC HIGHER EDUCATION. State and local tax revenue appropriated or levied for current operating educational expenses of public institutions. This ratio suggests the relative importance and requirements of financing public student education to the funding of other public services in the state and local government budgets.

UNITED STATES 31 % 100

#6 TUITION FACTOR. Student tuition revenue as a percent of total revenues from state and local government education appropriations plus student tuition revenue. This ratio suggests the relative importance of student tuition as a funding source compared to state-local appropriations. High ratios may reflect a large proportion of out-of-state students paying high non-resident tuition.

POTENTIAL TAX REVENUE PER STUDENT. These combined input factors establish a state's basic tax potential to finance public institutions relative to student enrollment load. Relatively stable tax potential to finance individual student's education without taking into account the types of institutions attended. Tax potential related to the state system's financial support requirements is reported as an index. Adjustment by the COG index establishes equivalent state purchasing power.

EDUCATION APPROPRIATIONS PER STUDENT. State and local tax revenues appropriated for current operating education expenses of public institutions per annual FTE student. Indicates average state support to individual students without taking into account the types of institutions attended. Education approp's related to the state system's funding requirements are reported as an index (APP/SSI). Appropriations for research, agriculture, and medical are reported as a percent of total appropriations to suggest relative importance, and per capita as a need measure shown in ( ).

NET TUITION REVENUES PER STUDENT. Tuition revenues of public institutions per annual FTE student. Indicates average tuition (less state appropriated student aid) paid by all resident and non-resident students without recognizing the types of institutions attended. Tuition related to the state system's funding requirements is reported as an index. Adjustment by the COG index establishes equivalent state purchasing power. Tuition revenues per student relative to disposable personal income per capita indicates tuition level relative to resident ability to pay.

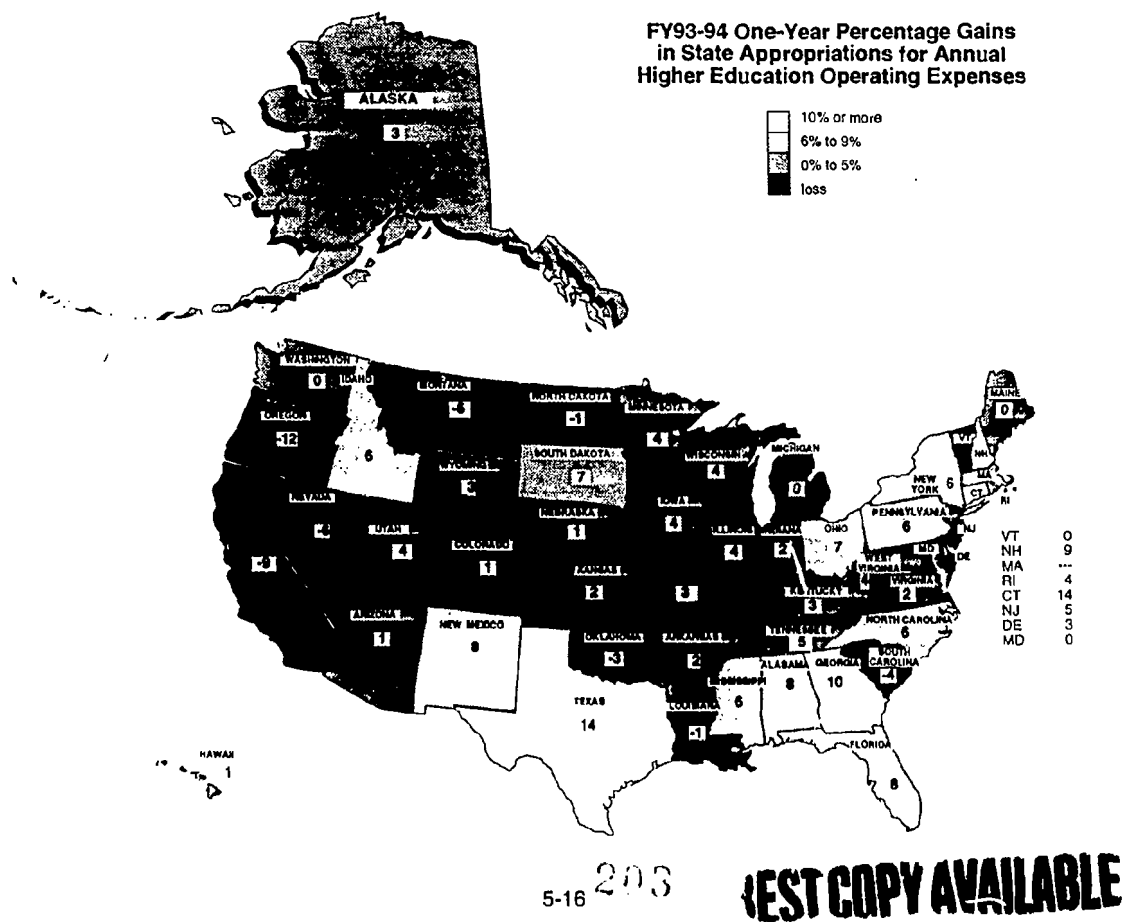

OVERALL FUNDING EFFORTS. The combined actions are the factors that establish the degree to which the potential tax revenues per student are actually utilized to achieve the support level provided. States with high percentage are making a substantial combined tax effort, allocation to education, and tuition charge to finance public institutions.

## Section 6

# HIGHLIGHTS

---

### Introduction

Section 6 focuses on UAF's research and public service functions. Tables 6.1 through 6.3 list research funding, proposal activity, and other measures of activity within each research institute. Tables 6.4 through 6.7 provide comparative information on UAF libraries and academic computing facilities. Lastly, Tables 6.8 to 6.10 highlight the following public service outreach functions at UAF: the Cooperative Extension Service, Museum, and KUAC broadcasting.

### Changes from Fact Book '93

The graphs in this section have been enhanced to highlight key comparisons. The graph on 'UAF Research and development by State' has been omitted and the table slightly modified to improve readability. Table 6.3 now lists the top 100 institutes in *federal* research and development spending.

### Highlights

- UAF was rated 98th in federal research and development spending out of the nation's top 100 research and development universities.
- The faculty submitted research proposals for a total of \$138 million in outside funding for FY93. This was an increase by \$27.1 million (24%).
- The number of patrons on the GNOSIS computerized library system increased by 5% and the number of volumes linked included in the system increased by nearly 3% for FY93.
- The number of personal contacts in the Cooperative Extension Program increased by 3.1% in FY93, however the contact hours decreased by 3.8%.
- Museum visitations were 142,258 in FY93, a 0.7% decrease from FY92. July was the most frequented month with nearly 39,000 visitations.
- KUAC donor contributions decreased by 11% in FY93 although the number of donors increased by 17%. The average donor contribution decreased by 24%.

NOTES: (1) Includes only Rasmuson Library and Research Libraries on the UAF Fairbanks Campus, 1990-91.  
(2) UAF is not an ARL research library.  
(3) ARL Institutes ranked six above and four below UAF in total spending on R&D from NSF Survey, FY91.  
(4) Not in the NSF top 100 for FY91.

NOTE: Utilization data from January 1-December 31, 1993; Holdings and patrons data as of January 17, 1994.

(1) Some Rasmuson and Anchorage patrons were converted to Interlibrary Loan patrons.

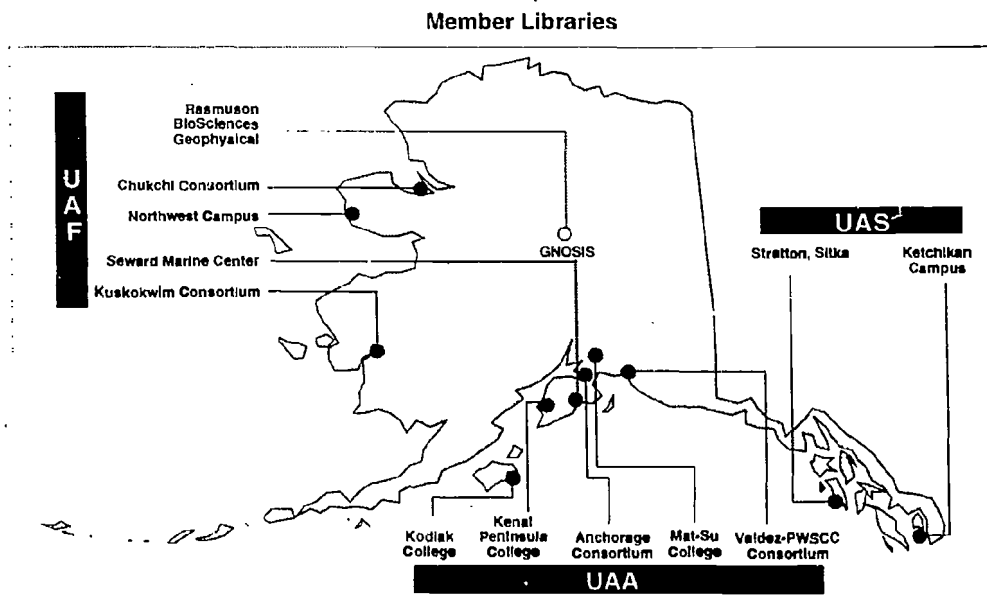

(2) BioMedical Library name changed to BioSciences Library.

(3) Juneau's holdings programmatically linked were deleted in order to prepare for reloading from their system.

(4) FITC in Kodiak is a branch of BioSciences Library.

(5) Interlibrary Loan patrons are shared and utilized by all sites.

## FY93 Contact Hour Distribution by Activity

NOTES: Programs in Ketchikan Office were not active during FY93 pending personnel recruitment.  
 (1) The number of people times the hours spent with those people (3 persons for 2 hours = 3 X 2 = 6 contact hours).  
 (2) One hour to several days intensive group learning session on a specific topic.  
 (3) Staff whose work is carried out under the supervision of a professional, either an agent or a specialist.

## Section 7

# HIGHLIGHTS

---

### Introduction

Section 7 contains descriptive statistics on UAF's buildings and includes several indicators of how well space is being utilized. Table 7.1 and 7.2 provide age, gross footage, investment values, and room use by building. Table 7.3 contains data on housing capacity and occupancy rates. Table 7.4 shows weekly classroom utilization by time of day. Lastly, Table 7.5 provides a three-year trend on the cost of leased space, how much is being leased, and where it is.

### Changes from Fact Book '93

This year, Tables 7.1, 7.2 and 7.3 have been modified for clearer readability. A 3-D graph has been included for Table 7.4 to show the Fairbanks campus hourly classroom enrollments. Future year Fact Books will include more information regarding instruction space utilization and attributes concerning UAF equipment, such as what equipment has been purchased, when, by what unit, for what purpose, and at what cost.

### Highlights

- 68% of the UA System buildings are part of the UAF physical plant. ( 57% of the total UA System gross square feet) Of all the UAF buildings, 54% are located on the Fairbanks campus, 37% are non-campus, and 9% are on branch campuses.
- UAF's current investment value of its buildings is \$0.46 billion. This is a 13% decrease over FY93's investment value.
- Two thirds of UAF's buildings, which account for 85% of the total UAF gross square feet, are over 20 years old. 37% are over 30 years old. UAF has the oldest plant of any of UA's institutions by a considerable degree.
- Total gross square feet remained constant from FY93-94.
- Demand exceeded supply for Fairbanks campus married student housing with 171 people wait listed for the 126 available units.
- UAF leased space square footage increased by nearly 36% and leased space costs increased by 24% from FY92-93, however the cost/square foot decreased by 8%.

NOTES: (1) All units of measure in square feet.  
(2) AFES - Agricultural Farm and Experimental Station.  
(3) Study - Includes library processing rooms, stacks, and stack/reading rooms.  
(4) General Use - Includes assembly halls, coat rooms, dining halls, exhibit facilities, kitchen facilities, merchandising rooms, multi-purpose rooms, music listening rooms, and recreational facilities.  
(5) Residential - Includes dormitories, apartments, and single-family residences.  
(6) Non-assignable - Includes circulation areas, custodial areas, public lavatories, and structural (shaft space, utility/mechanical rooms).  
(7) NUSF - Net Usable Square Feet.

NOTES: (1) All leases were for 6 months and were not continued in FY91.

(2) UAF moved out of APU in 1988. Based on an agreement with UAA, UAF continued to subsidize rents.

(3) There was no change from FY91 to FY92.

(4) Includes PWSCC.

Sources: Leased Space Reports FY90 - 93, SW Educational Property &amp; Facilities.

## Glossary

### Academic Unit

Campus or center designation used by Admissions & Records for SIS processing.

### Accepted

Person whose enrollment application credentials have been processed and approved by Director of Admissions.

### Administrative Staff

Full-time employees whose assignments require primary and major responsibility for management of the institution, or a customarily recognized department or subdivision thereof. Included are the Chancellor, Vice Chancellors, Deans, Institute Directors, and other officers of academic departments whose principal activity is administrative in nature. Supervisory personnel of the technical, clerical, skilled craft, and maintenance forces are reported within those specific categories.

### Admitted

Student accepted for enrollment at the University.

### Annualized Tuition, Fees

The total two-semester tuition charged for a student taking a course load at the consolidated level or above. Annualized fees are the total two-semester fee charges a student taking a course load at the consolidation level normally must pay.

### Applied

Person who completed a UAF enrollment application form and is awaiting acceptance.

### Associate Degree

Undergraduate degree. Minimum of 60 credits required.

### Bachelor Degree

Undergraduate degree. Minimum of 120 credits required.

### Base Year

The year used for the comparison of subsequent years' data.

### Branch Campus

Bristol Bay (Dillingham), Chukchi (Kotzebue), Kuskokwim (Bethel), Northwest (Nome), Interior, Tanana Valley (Fairbanks), and Arctic Slope Regional College (Barrow). Also includes Distance Delivery and Independent Learning.

### Certificate

Undergraduate program that can usually be completed in one year. Minimum of 30 credits is required (exception CHPs).

### Class Standing

The division of students by the number of credits earned. (Freshman, Sophomore, Junior, Senior, Graduate).

### Closing Enrollment

Headcount at the end of a semester after grades are posted.

### Continuing

Students enrolled a previous semester as well as the current semester.

### Credit Hours

Unit of measure toward attainment of degree. Approx: 1 credit = 1 hour lecture time/week for 1 semester.

### Credits Carried

The number of credit hours for which a student is enrolled.

### Daytime/Evening

Daytime classes begin after 6:00 a.m. and before 5:00 p.m. Evening classes begin at or after 5:00 p.m.

### Degree

Award for completion of a program. Degrees available: Certificate, Associate, Bachelor, Ed.S., Master's, Ph.D.

### Designated Funds

Current funds (funds expendable for day-to-day operations) not under state control and identified for a specific purpose.

### Developmental

50-99 level courses. Preparatory courses that are not applied to major.

### Direct Private Gift

Gifts made directly to the university by external entities.

### Distribution

The spread in percent of degrees, enrollment, or credit hours through the university, or college.

### Doctorate Degree

Ph.D, terminal graduate degree. Approximately 3 full years beyond bachelor degree.

### Education Specialist Degree

Graduate degree. Minimum of 36 credits beyond a master's degree.

## Glossary (continued)

### Enrolled Credit Hours

Calculated. Number of credit hours multiplied by the number of enrolled students.

### Enrollment

Number of students taking at least one course.

### Ethnicity

Racial group with which person identifies (self-reported). International students are grouped together.

### Extract Tape

A copy of selected data from SIS or HRS put on computer tape.

### 1st-time Freshman

Student not previously enrolled at any college.

### Fiscal Year

A twelve-month period of time starting each July 1 including the summer, fall, and spring semesters.

### Freshman

Class standing of a student with 0-29 credits.

### Full Time Equivalent (FTE)

Calculated figure. Semester Student FTE: Undergraduate credit hours/15; Graduate credit hours/12.

Fiscal/Academic Student FTE: Undergraduate credit hours/30; Graduate credit hours/24.

### Full-time Student

Undergraduate enrolled for 12 or more credit hours. Graduate enrolled for 9 or more credit hours.

### Graduate

Student admitted to a master's or doctoral program. Credit Hours at the 600 level.

### Headcount

An individual enrolled.

### Hometown (Application City)

Community where student was receiving mail at the time of application.

### Human Resource System

Database on which employee information is maintained (HRS).

### Indices

Ratio of current year to base year measurement.

### INSITE

Software package used to inventory and track UAF facilities.

### Instruction/Research

Instruction and/or research laboratories.

### Interdisciplinary

Individualized degree program significantly different from those already approved by the Board of Regents.

### International

Non-U.S. citizens who are not permanent residents.

### Junior

Class standing of student with 60-94 credits.

### Leased Space

Space not owned by UAF for which formal lease agreements have been arranged.

### Level

Used to identify reports with undergraduate (lower, upper) and graduate credit hours or enrollment cohorts.

### Lower Division

100-200 level courses.

### Main Campus

Fairbanks Campus - Does not include TVC, Distance Delivery, or Independent Learning.

### Maintenance Staff

Employees whose duties result in or contribute to the comfort, convenience, and hygiene of personnel and the student body, or which contribute to the upkeep and care of buildings, facilities, or grounds of the institution property.

### Major

The degree program a student declares to be striving to complete.

### Master's Degree

Graduate degree with minimum of 30 credits beyond the bachelor degree.

## Glossary (continued)

### Migration

Tracking of students from previous semester to show current class standing.

### Minority

Person whose ethnicity is Alaska Native, American Indian, Asian, Black, or Hispanic. Not included are Whites, Unknown, Other, and International.

### New Student

A student who has not previously been enrolled at UAF.

### Non-degree seeking

A student not enrolled in a degree or certificate program.

### Non-resident Tuition

Tuition charged students who do not claim Alaska residency.

### Non-Tenure Track

Faculty not eligible for tenure; includes some instructors and visiting appointments.

### Opening Enrollment

Headcount at the beginning of the semester. Usually taken at the end of the course add/drop period (3rd week).

### Origin

State or community where the student was receiving mail at the time of application; citizenship is used as origin for international students.

### Other

Students who cannot be categorized in another group.

### Paraprofessional (CES)

Staff whose work is carried out under the supervision of a professional, either an agent or a specialist, and whose work is related to a specific program area. These include Pest Scouts, other Land Resources program efforts in connection with their specific area of expertise, and assistance agents in program delivery.

### Part-time Faculty/Staff

All employees whose coding on the UACN HRS System indicates that they are part-time employees regardless of funding sources.

### Part-time Students

Undergraduate students enrolled for less than 12 credit hours. Graduate students enrolled for less than 9 credit hours.

### Professional Staff

Employees whose assignments require either college graduation or experience of such kind and amount as to provide a comparable background. These employees are not included in the Administrative, Faculty, Clerical, Technical, Skilled Crafts, or Maintenance categories.

### Professional/Post Bach Courses

500 level courses.

### Program

A field of study classified by CIP code, the major, and degree type.

### Research Faculty

Employees whose primary assignments customarily are made for the purpose of conducting research as a principal activity; instruction and public service may be performed as additional activities.

### Research Lab

Laboratory space not primarily used for classes.

### Resident Tuition

Tuition charged Alaska residents, U.S. military & dependents, and residents of the Yukon and Northwest Territories.

### Restricted Current Funds

Funds accepted by the university on the condition that they be used for donor-specified current operations. Upon accepting restricted funds, the university is legally bound to use the funds for the specified purpose or to refund them.

### Returning Student

Previously enrolled student that returns after an absence.

### Senior

Class standing of an undergraduate student with 90 or more credit hours

## Glossary (continued)

### Skilled Crafts Staff

Employees whose assignments typically require special manual skills and a thorough and comprehensive knowledge of the processes involved in the work, acquired through on-the-job training and experience or through apprenticeship or other formal training programs.

### Sophomore

Class standing of an undergraduate student with 30-59 credit hours.

### State Financial Aid

Grants and loans made to Alaskans attending approved schools, both inside and outside of Alaska.

### Student Credit Hour

A unit of measure that represents one student engaged in an activity for which one hour of credit for a degree or other certificate is granted upon successful completion.

### Student Information System

Database on which student information is maintained (SIS).

### Technical Staff

Employees whose assignments require specialized knowledge or skill which may be acquired through experience or academic work that is offered in many two-year technical institutes, junior colleges, or through equivalent on-the-job training.

### Tenure

Full-time faculty (regardless of funding source) whose coding on the HRS database indicates they have tenure.

### Transfer Student

Student enrolling with credit from a previous college.

### Trend

The change in a measurement with respect to time.

### Undecided

Student who has been accepted as a degree-seeking student but has not decided on a major.

### Undergraduate

Courses at the 100-499 level. Students who are not enrolled in a graduate program.

### Unknown

Person did not provide information to determine category.

### Upper Division

300-400 level courses.

## Abbreviations

ACPE	Alaska Commission on Postsecondary Education
ACT	American College Test. Four sections (English, Math, Social Sciences, Natural Sciences).
CIP	Classification of Instructional Programs (U.S. DOE)
CLA	College of Liberal Arts
CNC	College of Natural Sciences
CPU	Central Processing Unit
CRA	College of Rural Alaska
EACT	Enhanced American College Test replaced ACT (English, Math, Reading, Science).
FT	Full-Time Students
FTE	Full-Time Equivalent (student or faculty)
HRS	Human Resource System
INE	Institute of Northern Engineering
INSITE	Institutional Space Inventory Techniques
SALRM	School of Agriculture & Land Resources Management
SAT	Student Achievement Test
SCH	Student Credit Hours
SFR	Student Faculty Ratio
SOE	School of Engineering
SFOS	School of Fisheries & Ocean Sciences
SIS	Student Information System
SOM	School of Management
SME	School of Mineral Engineering
TVC	Tanana Valley Campus
UAF	University of Alaska Fairbanks
WICHE	Western Interstate Commission for Higher Education
